MEMORANDUM RE APPLICANT ALEX ROSEN.

I have examined the notes submitted by this applicant in connection with his interview with me at the Book-Cadillac Hotel today and find that they are accurate in every sense and, as a matter of fact, they were made in agent's presence during the course of the interrogation.

This young man is very affable and calm and conducted the interview like one who had been experienced and steadily engaged in work of this character. At the outset he explained that it would be necessary for him to make some notes on the matter as he wanted to be accurate. Rosen exhibited a very pleasant personality and it was very clear that his line of questioning was connected and conducted with an idea of being familiar with what he was seeking from the very outset.

This young man has a happy faculty for being able to mix conversation of a general nature with his business; that is, he exhibited this during the interview, and, altogether, he was a very smooth talker.

Respectfully,

Special Agent.

Dear Sir:-

For the past three years I have actively been engaged in the practice of law in the State of Ohio. During that time I have had a great deal of experience in investigative work. I have had an opportunity to observe and determine for myself my aptitude for the position for which I am applying at the present time.

During the last few months a great deal has been said concerning the Bureau of Investigation and its work. I have had occasion to read of the Bureau's work and have interested myself in carrying out my particular adaptability in investigative work with your Bureau. Because of these facts I have taken such steps as would lead to an appointment in your department and I feel that I am able to serve the Bureau in the particular capacity for which I apply.

I humbly submit this as my record.

Yours truly,

Re: ALEX ROSEN
Applicant Special Agent

Dear Sir:

In Division communication dated August 14, 1933, regarding an investigation concerning the above named Applicant, the following notation appears: "He was physical education instructor at Camp Schroon, Camp Harlee and Camp Pontiac."

The Agent to whom this case was assigned at Cleveland, Ohio, has determined that Camp Schroon is located at Schroon Lake, New York, and under the directorship of Eugene F. Hoes, whose address is 220 West 42nd Street, New York City. Camp Harlee is located at Tyler Hill, Pennsylvania, under the directorship of Mrs. Harriet M. Mitchell, 945 East End Avenue, New York City. Camp Pontiac is located at West Copake, New York, the directors being Mr. and Mrs. J. L. Hofstadter and Larry Liss, 490 West End Avenue, New York City.

It is requested that the New York City office conduct the necessary inquiry in that city concerning the three above named camps as all of the offices appear to be located there. In view thereof it does not appear necessary that the Philadelphia Office conduct investigation at this time at Camp Harlee.

Examination of the Makio, student year book, indicates only that Applicant was a pledge of Sigma Alpha Mu fraternity during his first year at the school, and a member of Zeta Beta Tau fraternity during his subsequent years. Agent was advised by Miss Buckley that Zeta Beta Tau is the leading Jewish fraternity at the University. She further advised that the only local addresses on file for Subject during the time he attended the school were these two fraternity houses.

Professor R. M. Hunter, Secretary, College of Law, Ohio State University, advised that Applicant had been a student in his course in Contracts but that he has no recollection of him aside from his record of grades which in this particular course was not satisfactory. He further advised that he is the only member of the faculty who was teaching during the school year 1926-27 who is also on the staff at the present summer session.

At the Zeta Beta Tau fraternity house, 174 East Woodruff Ave., Columbus, Ohio, where Applicant resided for three school years, agent was advised by a woman answering the door that she and her husband had rented the house for the summer and that no members of the fraternity would be there until the Fall term of school. At the Ohio Bureau of Credits, 555 East Broad Street, Columbus, Ohio, it was ascertained that there is no record on file for Applicant, indicating that he never applied for credit while residing in Columbus, Ohio as this Bureau has as members practically all business houses in Columbus and vicinity.

From Captain John E. Davis, Identification Division, Columbus Police Department, it was ascertained that there is no fingerprint record for any Alex Rosen at Columbus. From Mr. A. W. Collin, Record Room, Police Department, it was also ascertained that there is no record of any arrest of Applicant on any misdemeanor charge.

his own since leaving Mr. Stern's office; that this practice has been very limited, being confined to collections, divorce and personal injury cases and such other small matters as are usually given to a young independent lawyer. It is Mr. Marcuson's impression that the applicant has conducted the trial of one or two unimportant cases but he is not sure as to this. Mr. Marcuson advised that the applicant has assisted him to some extent in his office work but has never been employed by him and that he personally has referred some legal matters to the applicant and that in each case he has handled them satisfactorily; that in his opinion the applicant cannot be regarded as a brilliant lawyer, but at the same time he does believe him to be well above the average young attorney; that he knows of no organizations of which the applicant is a member; that he has no knowledge and has heard no rumor of anything in which the applicant has been involved which would reflect upon his character; that he personally knows that Mr. Rosen bears an excellent reputation among his professional associates; that in his opinion the applicant could not be influenced in the performance of his duties by any irregular consideration; that Mr. Rosen lives moderately, has excellent personal habits and has never been known to make any use of intoxicants; that he has never heard the applicant express his attitude toward prohibition; that the applicant has a keen mind, is studious and patient; that he has a splendid appearance, is personally neat, and possessed of an engaging personality.

Mr. Marcuson stated that the applicant is affiliated with the Democratic party and it is his understanding that he made one or two campaign speeches in behalf of the present county prosecutor, Frank T. Cullitan, Esq., but that this has been the extent of his political activity. Mr. Marcuson also stated that he believes the applicant is well qualified for the position which he is seeking and that he does not hesitate to recommend him.

Edward Younger, an attorney, named as a reference by the applicant, advised that he has known Alex Rosen's father, Herman Rosen, and his mother, Lena Rosen, for thirty years, and that he has known the applicant since childhood; that in more recent years the applicant has visited at his home and he, Younger, is a frequent caller at the Rosen residence; that the applicant is a thoughtful, studious young man; that he is possessed of an engaging personality, striking in his physical appearance, being about six feet in height, weight about one hundred and seventy-five pounds, athletic build, and no physical defects.

Mr. Younger stated that he will recommend Alex Rosen to any employer for his sincerity of purpose, loyalty and ability; that the applicant is a young man of high ideals and could not be influenced in the performance of official duties by any mercenary or political influence; that applicant comes from a strict Orthodox Jewish family; that he has particularly admired the conduct of the applicant during the recent months because of the philosophical attitude with which he has taken the severe financial reverses which his family has met. According to Mr. Younger, the applicant has never been involved in any kind of trouble and his reputation among his acquaintances is excellent.

Mr. N. Weisenberg, president, Standard Paint and Lead Works, Willey Ave., Cleveland, O., a reference named by the applicant, advised that he has known the applicant for at least eight years; that he is a neighbor of the Rosen family

and a personal acquaintance of the applicant's father; that he has had contact with the applicant through his son who is a companion of the applicant; that the applicant visits at his (Weisenberg's) home practically every day and that from among all of his son's acquaintances he personally believes that Alex Rosen is the most perfect gentleman; that the applicant is honest and reliable and that nothing has ever come to his attention which would in any way reflect upon his character; that Alex Rosen bears an excellent reputation in the neighborhood and that he has never been involved in any kind of trouble; that in his opinion the applicant could not be reached by political, personal or mercenary influence; that his personal habits are excellent and that he has never known him to use intoxicants.

Dr. A. S. Maschke, 7016 Euclid Ave., a reference named by the applicant, advised that he has been the physician of the Rosen family since the applicant was a small child; that his only contact with Alex Rosen has been in his professional capacity, but that he considers the applicant to be a fine young gentleman and knows that he comes from a good family and has received excellent home training. Dr. Maschke further stated that to the best of his recollection he has not seen the applicant for about one year, but that no information has ever reached him which would indicate that the applicant has been involved in any kind of trouble. Dr. Maschke also advised that if the applicant's educational attainments are found to be sufficient for the position sought he knows of no reason why he would not be a credit to the service.

At the Heights High School, Cleveland Heights, O., Mrs. M. Ralston, secretary to the principal, advised that Alexander Rosen, 2729 Euclid Heights Blvd., had entered that school from the Heights Junior High School on March 3, 1919 and was graduated on June 14, 1923; that he pursued a college preparatory course and was a "little better than a fair student"; that in this school the term "fair" is applied to students having a numerical average between 80 and 85; that Alexander Rosen excelled in oral English, and, with the exception of physics and Latin, received grades of "fair" and "good". The only failure was in third year Latin. No information was available concerning the applicant's extra curricular activities in high school and none of the present officials of the school were on the staff there at the time of the applicant's graduation. However, the records do not indicate that any disciplinary action was ever taken against the applicant. The date of the applicant's birth appears on the records of this school as September 14, 1905.

Miss Olga Sorensen, Secretary of the Cleveland Law School, Engineers' Building, Cleveland, O., advised that Alex Rosen was a student at that school from September 24, 1927 until June 6, 1929, when he was graduated with the degree of Bachelor of Laws; that the applicant maintained a good scholastic standing throughout the two years that he was a student at this school, having a numerical average for the two years of 83.3; that this student excelled in courses in Negotiable Instruments, Bailments, Sales, Corporations and Pleading, while his lowest grade was received in the course in Damages, the grade being 71, his next lowest grade, 87, was received in Evidence. The applicant did not take a course in criminal law at this school, credit for this course having been accepted from the Ohio State University Law School, where the applicant was in attendance prior to his enrolment at the Cleveland Law School.

Miss Sorensen stated that she was personally acquainted with the

applicant while he was a student at this school; that he had excellent manners and was a real gentleman, and was somewhat above the average in his scholastic attainments. The only member of the faculty of this school whom Miss Sorensen could suggest as possibly being personally acquainted with the applicant is Howard D. Burnett, lecturer in Equity and Real Property.

Howard D. Burnett, Esqu., Society for Savings Building, advised that his acquaintance with the applicant is limited to his lecture-room associations, but that he considers Alex Rosen to be a very fine young man; that he has never heard any comment regarding him which would reflect upon his character; that the applicant has a good mind, an engaging personality, a sound education, and is a young man of excellent appearance, and that he is glad to recommend him for the position which he is seeking.

Max J. Wolpaw, Assistant United States Attorney, advised that he has been personally acquainted with the applicant for a period of six or seven years, and that he is also acquainted with most of the applicant's intimate friends, and that he will say that the applicant bears an excellent reputation in the community; that he is a quiet, reserved, thoughtful, level-headed, young man who could be safely trusted with matters of a highly confidential nature; that the applicant has, for the last several years, at least, been affiliated with the Democratic party; that he has never, to his knowledge, been involved in any kind of trouble; that he is a clean-cut, likeable man who, in his opinion, would be a distinct credit to this Division.

Mr. John F. Schiltz, superintendent of the apartment house at 2729 Euclid Heights Boulevard, Cleveland Heights, advised that he has been superintendent at this place for the last six years and that his records indicate that the applicant, his parents and one sister have resided at this address for sixteen years. Mrs. Schiltz was present at this interview and both she and her husband stated that the members of the Rosen family are very desirable tenants; that the applicant, Alex Rosen, is quiet, courteous, gentlemanly and well liked; that during the six years that they have known him his conduct has been admirable; that they have never seen him under the influence of liquor and that they have never heard any rumor concerning him which would reflect on his character; that he is very considerate of his parents, and that to their knowledge he had never been involved in any kind of trouble.

T. R. Wierstrom, Detective in charge of the identification department of the Cleveland Heights Police Department, after searching the records, advised that the applicant has no criminal record with that department. Detective Wierstrom further advised that he had made inquiry among all of the detectives on the Cleveland Heights force and that while several of the officers knew the applicant none of them has any knowledge of his ever having been involved in any difficulty.

Inquiry at the Bureau of Criminal Identification of the Cleveland, O., police department, developed that there is no criminal record on file there for Alex or Alexander Rosen. Only felony arrests are recorded by this bureau, and the Cleveland Police Department does not maintain an index of the names of persons arrested for misdemeanors, the only record of these arrests being the docket

entries at the First Precinct. Since these dockets are not indexed several days work would be required to ascertain whether the applicant was ever arrested on a misdemeanor charge in Cleveland. It was likewise impossible to verify the statement of the applicant to the effect that he was arrested at Cleveland in 1927 on a charge of speeding, the charges later being dismissed; however, a search of the dockets in the office of the Clerk of the Police Court indicate that no prosecutive action was taken against the applicant on this charge.

W. H. Gray, secretary, Cleveland Retail Credit Men's Company, National City Bank Building, advised that the applicant has no credit rating with this concern. This is the only agency in Cleveland maintaining credit ratings of private individuals. However, Mr. Gray stated that his file on the applicant's father indicates that before moving to their present address in Cleveland Heights the Rosen family resided at 10301 Pierpont Ave., Cleveland. Mr. Gray also advised that the applicant's father, Herman Rosen, is a designer employed by the Landsman Herschheimer Company, manufacturers of dresses.

The following investigation was conducted by Special Agent [redacted] at Detroit, Mich.:

C. L. Maas, General Manager, Kline's Department Store, Detroit, Mich., was interviewed at his office on August 19, 1933 by Agent [redacted] Mr. Maas stated that until recently he had resided in Cleveland, O., and this applicant lived with his parents next door for a number of years. Applicant and Mr. Maas' son grew up together and Mr. Maas has had every opportunity to observe applicant and from such observation states that applicant is a very fine young man in every respect, being regarded as studious, honest and industrious. His character is good and informant advises that he has no hesitancy whatever in recommending Alex Rosen. He assumed that Rosen was applying for some class of work for which his schooling may have fitted him. Rosen's father, according to Mr. Maas, is a designer being employed by a cloak firm in Cleveland, O.

NEW YORK FILE #67-1245

Edward B. Fox, Assistant Registrar, Columbia University, New York City, advised that his records show that Alex Rosen attended the summer sessions of 1928 as a law student.

He passed two law courses, American Constitutional Law #1 and American Constitutional Law, #2 with grades of "C". According to Mr. Fox the grade of "C" stands for "Fair." At the time Rosen entered the University he gave Annetta Rosen, 2729 Euclid Boulevard, Cleveland, O. as the person to notify in case of emergency. No other information was available at the university in reference to Rosen.

In the letter of reference from the Detroit Office it will be noted that applicant was Physical Education Instructor at Camp Schroon, Camp Pontiac, and Camp Harlee. The said reference letter set forth that it had been determined that Camp Schroon is located at Schroon Lake, N.Y. and that Camp Harlee is located at Tyler Hill, Pa. while Camp Pontiac is located at West Copake, N.Y. The names of the directors were set forth.

Investigation in New York City revealed that the directors of the Camps are not in New York City and are located at the respective camps and will be until after Labor Day. Hence it was deemed advisable in order to expedite the investigation, to contact these individuals who are in the New York District, by telephone.

In the telephone conversation with Camp Schroon, it was ascertained that Mr. Eugene F. Moses is bedridden, however, through his wife who is with him it was learned over the telephone that neither Moses nor his wife had any recollection that Alex Rosen had ever worked there. Mrs. Moses advised that the Camp has been under the direction of her father-in-law or her husband for the last 28 years and that had Rosen been employed there in recent years they would undoubtedly have a fresh recollection of him.

J. L. Hofstadter, director of Camp Pontiac, West Copake, N.Y. over the telephone advised the writer that Alex Rosen was employed at the camp as a counselor from July 1 to September 1 during the summer season of 1928 or 1929. It appears that Rosen was in charge of a number of boys and gave very satisfactory service. Mr. Hofstadter described him as clean cut, dependable and intelligent and said he was possessed of high moral standards. He readily endorsed Rosen for any position his education might qualify him to hold.

Inspector J.J. Donovan, Division of Criminal Identification of the New York Police Department, advised that he has no criminal record of Alex Rosen by name.

UNDEVELOPED LEAD

PHILADELPHIA OFFICE

At Camp Harlee, Tyler Hill, Pa., is requested to immediately interview Mrs. Harriett M. Mitchell, director, to ascertain the applicant's character, reputation, ability and qualification for the position of Special Agent.

The Division has requested that this investigation be expedited.

REFERRED UPON COMPLETION TO OFFICE OF ORIGIN

Harry Pattie, Esq., Standard Bank Building, Chairman of the grievance committee of the Cleveland Bar Association, and James Connell, Esq., Terminal Tower Building, chairman of the grievance committee of the Cuyahoga County Bar Association, advised that no complaint concerning the applicant has ever been filed with their committees. Neither of these attorneys is personally acquainted with the applicant and they could furnish no information concerning his character or ability.

The applicant, in his personal history has indicated that he was employed as a law clerk from September to November, 1927, by Joseph L. Stern, an attorney.

Joseph L. Stern, Esq., Guarantee Title Building, Cleveland, O., advised that Alex Rosen was employed as a law clerk in his office from September to November, 1929 (not 1927); that he is not related in any way to the applicant, but that when Alex Rosen completed his legal education he came to him and asked for a position in his office; that he, Mr. Stern, in a moment of weakness agreed to take him into the office without realizing how much additional training is required by a young man just out of law school before he can be an asset to a law office; that after a short time he found that he was spending too much time on Rosen, teaching him the detailed routine of the office and that the connection was severed after a few months in the interest of both parties. Mr. Stern stated positively that there had been no reason for the applicant leaving his employ except the fact that he found that he (Stern) could not spend the necessary time in training him; further, that Rosen, at the time he was in his employ, had not yet been admitted to the bar.

Mr. Stern advised that it is his understanding that Rosen, after graduation from law school, postponed taking the bar examinations until the next year in order that he could take a preparatory course given by a private instructor. Mr. Stern stated that nothing reflecting on the applicant in any way had occurred while he was in his employ; that the applicant is a fine young gentleman and that he would trust him with anything; that he knows that the applicant has an excellent legal education but is unable to state just how much practical ability he has acquired. In Mr. Stern's opinion the applicant cannot be reached by any political, financial or social consideration, and Mr. Stern stated that he would not hesitate to trust him with the most confidential matter; that the applicant is a good looking young man, neat in appearance and courteous in manner; that his personal habits are excellent and he has never known him to use intoxicants. Mr. Stern also stated that the applicant is a "square shooter" with lots of patience and that he personally believes the applicant to be qualified for the position sought.

Clarence H. Marcuson, attorney, Leader Building, a reference named by the applicant, advised that he has been acquainted with Alex Rosen for about four years; that after Rosen left the employ of Joseph L. Stern he opened an office for himself and shared a suite with him, Marcuson, Richard K. Block, Albert S. Schulman, Max E. Meisel and Sidney B. Fink, attorneys; that the applicant has had no professional connection with these attorneys, but merely has shared office space with them. Mr. Marcuson stated that he was not aware that Mr. Rosen had applied for appointment as a special agent; that he has been in daily contact with the applicant ever since he moved into his suite of offices; that Rosen has been conducting a small practice of

The grades and results shown are those recorded by the Police Department and furnished to Special Agent Emmer who was in charge of the group at this practice test. All the firing was done at a distance of 45 feet from the target.

Special Agent Emmer also has recorded the results of his own test in this regard and this information is likewise being furnished as a matter of record for the Division.

MEMORANDUM FOR THE DIRECTOR.

On the evening of November 12th, Special Agent A. Rosen phoned to me at my home, identified himself as a Special Agent of the Division of Investigation, U. S. Department of Justice, and requested an interview relative to one Harry B. Walker, a fictitious applicant for position of special agent, who had given my name as reference.

Accordingly, Agent Rosen interviewed me at my home relative to my knowledge of this applicant. He covered the ground thoroughly and appeared to be a little too careful and painstaking in framing his questions. His questions were put in such a way as to suggest the answers he expected, which, under ordinary circumstances, the person interviewed would simply affirm the suggestion made.

After discussing the applicant for approximately fifteen minutes, Agent Rosen requested leave to review the information furnished up to that point, carefully reading his notes to me to make certain that he had the information correct. He then pursued the inquiry further, in order to fully develop my knowledge of the applicant and consumed approximately forty minutes for the entire interview, which, in my opinion, would be an imposition in the case of a man whose time is valuable. Of course, in this instance it did not make any difference as to the amount of time taken to conduct the interview.

With reference to the report submitted by Agent Rosen covering the interview, it has been noted that the synopsis does not set out a complete and concise statement of the information contained in the body of the report. Mr. Rosen also sets out in the synopsis that I was interviewed. This is considered superfluous and it is the better practice to simply set out in the synopsis that "_____ stated applicant to be of good moral character, intelligent, trustworthy, popular and well thought of by members of the D. C. Bar, members of the Alpha Delta Phi legal fraternity; formerly employed in the office of Senator Simmons of North Carolina". The report accurately records the information furnished to Agent Rosen by me. His demeanor during the interview impressed me as indicating a full understanding of how to conduct himself during an interview, and in my opinion, he will develop into an excellent agent.

Simons, member of the Senate Finance Committee did not require that Walker engage in any political activity and Newby does not know of anything to the contrary. Newby and applicant studied and engaged in the trial of a law suit held in Post Court, after which the students were of the unanimous opinion as to the capabilities of Walker's speaking abilities.

Newby informed agent that applicant was honest beyond question and that he could be trusted with confidential information without fear of being susceptible to bribery or inducement. He is an aggressive and inquiring type, and particularly adapted in interviewing people having had such experience while in the employ of Senator Simons. Applicant seems to come from a respectable family and enjoys a reputation of honesty, straight-forwardness of character among his associates. Newby has seen applicant drink on occasions but does not believe that he is an habitual drinker because of having taken an occasional drink.

Applicant is experienced in practical court work and in the trial of cases having been in the employ of Clifford Grant Columbian Bldg. Washington D. C. from 1930 to 1933. Grant is a former employee in the Division of Investigation.

Potent Gordon, Judge of the Supreme Court, District of Columbia, stated, at a meeting at which Newby was present that Walker was a model young lawyer and otherwise commended on applicant's fitness.

Walker carried a bank account at Security National Bank while located in the city and was a personal friend of Francis G. Addison, President of said bank.

Applicant presents a neat appearance and is especially fond of tennis. The following will depose as to his physical fitness.

Mr. H. H. Clegg,
Division Training School,
Division of Investigation,
U. S. Department of Justice,
Washington, D. C.

Dear Sir:

Due to present plans to begin a new school for Special Agents at a very early date and due to the volume of work now pending in the Washington Field Office, I desire to authorize you to make use of the services of one of the Special Agents now attending the training school for the purpose of completing the investigation of an applicant for a position as Special Agent.

Mr. Harry B. Walker of 1839 Chatham Road, Siler City, N. C., is an applicant for the position of Special Agent. He has listed as one of his references Mr. R. E. Newby, 3215 Eling Road, N. W., Washington, D. C. The entire investigation, with the exception of this interview, is being handled by other field offices of the Division, and it is desired that you assign one of the members of the training school to interview Mr. Newby for the purpose of ascertaining his views concerning the qualifications of the applicant. Charlotte is the office of origin in this case.

Due to the fact that the Special Agent handling this assignment will be one of limited experience in the Division's work, he should be informed that the investigation is of a strictly confidential character and he is not to discuss the fact that he is making this investigation with either members of his own family or of the present training school class of which he is a member. It is desired, however, that this matter be given prompt attention.

Very truly yours,

Director.

MEMORANDUM FOR THE DIRECTOR

There is attached hereto the report submitted by Special Agent A. Rosen, trainee, covering a test interview with me in a National Motor Vehicle Theft Act lead.

At the time of the interview, Agent Rosen's approach and appearance were very good, he launched into the interview promptly, pursued it politely and throughout the interview his conversation was pleasing and polite. He did not touch upon any unnecessary item and did not dwell upon inconsequential details. He took notes of the information elicited during the interview, which was quite proper, and his questions were apparently extemporaneous. So far as his interview is concerned, it was quite satisfactory.

Agent Rosen stressed the fact that the prospective witness should, himself, secure the papers from the insurance company through which identification and the ownership of the car could be established. He failed to determine the value of the car and upon incidental inquiry, he was somewhat confused as to the venue of prosecution and the nature of the prosecution, i. e., interstate transportation of the car knowing the same to have been stolen.

In the synopsis of his report, Agent Rosen erroneously reports the location of the car at the time of the theft, it being stated it was parked in front of O'Donnell's Restaurant, and makes the statement that the car had been in repair. No mention was made of any repairs on the car.

Agent Rosen omits the reference but does refer to the report upon which the inquiry is predicated in the initial paragraph of his details. In his details, Agent Rosen reports my address as 402 Department of Justice Building rather than 420; Agent made an error as to the location of the car at the time of the theft, stating it was located at 13th and E Streets, whereas it was located at 12th and E Streets; makes the statement "owner upon reporting the theft of the car to the insurance company that held the policy requested all papers of identification, and Mr. Little did not have any means of evidence of ownership", which is wrong, and apparently Mr. Rosen means that the insurance company has such papers; Agent Rosen merely mentions, as a concluding paragraph, "Indiana license plates #570670 without any indication as to what this statement refers.

Agent Rosen should have set out leads to determine whether the records of ownership were available at the State Automobile Insurance Company at Indianapolis, Indiana, and the proper person to subpoena to produce same. He should also have set out a lead to determine the ownership and disposition of D.C. license #K-7941 reported found on the car at the time of recovery.

DETAILS: This investigation is predicated upon the report of J.L. Kensington dated 7/5/33.

John B. Little of 402 Department of Justice Building Washington, D.C. was interviewed and stated that he was the owner of a Marmon convertible phaeton model 1933, Standard design. The car had no extra equipment of any kind and to the knowledge of the affiant there were no marks that could be identified by him. Mr. Little further stated that he never had occasion to observe any motor or other assembly numbers on his car, and could not of his own independent knowledge and recollection testify to the same.

On the night of June 26th, 1933. Mr. Little stated that he, accompanied by his wife parked his car in front of O'Donnell's Sea food restaurant at about 7:00 P.M. located at the northwest corner of E. Street near the intersection of 13th and E. Street, Washington, D.C. He got out of his car after having locked it and from there proceeded to the restaurant aforesaid which was directly in front of the car. He and his wife were in the restaurant approximately one hour after which they contemplated attending the Earle Theater, located on 13th Street between E and F Street in this city. Affiant stated that he noticed his car at about eight o'clock that same evening on his way to the theater, and that at about 11:00 P.M. he proceeded to the place where he had left the car parked and found that it was missing. The owner does not remember the name of the officer to whom he reported the theft but he did report the same immediately upon discovering it to the local police in this city. The green Marmon in question was purchased in Indianapolis, Indiana, from a Marmon agency believed to be known by the affiant as called Walerich Bros.Co. However the owner is not sure of this exact name.

Owner, upon reporting the theft of the car to the insurance company that held the policy requested all papers of identification, and Mr. Little does not have any means or evidence of ownership, certificate of title or registration card in his possession. However he stated that he is insured by the State Auto Insurance Co. of Indianapolis, Indiana, and that he could and would be glad to write them for the necessary papers if we requested him to do so. He said he had no interest in the prosecution of the subject and that he was fully paid. The owner was informed that he will be a necessary witness before the grand jury or in the trial of the case and thereupon informed your agent that he would gladly do anything to help us.

SYNOPSIS OF FACTS:

Burke arrested Roswell, New Mexico July 3, 1933, possession Marmon Sedan, value \$1500, stolen Washington, D. C., June 27, 1933, from T. O. Brown, owner. Tried to obtain loan of \$300 on car at Roswell. Admits interstate transportation with guilty knowledge. Complaint filed and Burke held for Grand Jury in default of \$3000 bail.

DETAILS:

This investigation is predicated upon telephonic advice received from Fred B. King, Sheriff, Roswell, New Mexico, to the effect that he was holding Martin A. Burke, with a Marmon Sedan, thought to have been stolen at Washington, D. C.

DETAILS:

Sheriff Fred B. King, of Roswell, New Mexico, advised agent that on July 3, 1933 he was informed by Thomas G. Dunn, a real estate operator of Roswell, New Mexico, that a man claiming to be James O'Donnell of Washington, D. C. had driven up to his place of business at 9 A.M. on the same date and had attempted to secure a loan of \$300, giving as security a Marmon Sedan bearing a District of Columbia license tag; that upon being questioned with reference to the ownership of the car O'Donnell gave evasive answers, and when Dunn sought to call a Deputy Sheriff for examination of his title to the car, O'Donnell fled from the scene. Sheriff King stated that

O'Donnell was arrested by his Deputy, Steve James, and upon being brought to the Sheriff's Office denied that he was the individual who had approached Dunn with reference to a \$300 loan on a Marmon Sedan. Sheriff King stated that aside from denying he had ever seen Dunn before, O'Donnell refused to make any statement, but that Dunn had positively identified O'Donnell as the man in question.

Thomas G. Dunn, Real Estate Operator, with offices at 100 Rex Building, Roswell, New Mexico, informed agent that he not only deals in real estate, but occasionally loans money on automobiles or other personal property; that on the morning of July 3, 1933 he came to work as usual at 9 A. M., and after entering his office, he was approached by a man who gave his name as James O'Donnell, whom he has positively identified as the individual of that name being held on suspicion by Sheriff King; that O'Donnell told him he was en route from Washington, D. C. to Los Angeles, California in his personal automobile, a Marmon Sedan, 1933 model, which he pointed out standing at the curb; that on the night of July 2, 1933, in Amarillo, Texas, he had engaged in a game of stud poker with some travelling men at a hotel, and had lost practically all of his money; that he had driven from Amarillo to Roswell, but upon arrival had received a telegram, c/o Western Union Office, from his wife in Los Angeles; that upon leaving Washington he had arranged with his wife to telegraph him at several points along the line as to the condition of his mother, also a resident of Los Angeles, who had been seriously ill; that the telegram from his wife indicated his mother was at the point of death and he should arrive in Los Angeles without further delay; that he had insufficient funds to proceed to Los Angeles by rail and, therefore, desired this loan on the car.

Mr. Dunn further stated that O'Donnell was such a smooth talker that he became suspicious of the latter's story and asked him to exhibit the telegram, which he claimed to have received at the Western Union Office in Roswell. O'Donnell was unable to do this, saying that he must have left the telegram on the counter at the Western Union Office, and seemed rather confused at being thus requested to produce it. Mr. Dunn further stated that he told O'Donnell he would be willing to loan him \$300 on this car if he could produce title to the same, but that before making such loans to a stranger he would require that the car be checked by the Sheriff's Office; that at about this time he saw

Steve James across the street and told O'Donnell that he would call James for the purpose of having the car checked and then would give further consideration to the loan; that he called to James, who started across the street, whereupon O'Donnell without another word started walking rapidly away from the entrance door to Dunn's office, and upon reaching the nearest street corner apparently fled, because when he and James reached the corner O'Donnell was not in sight.

Deputy Sheriff Steve James informed agent that he saw the man O'Donnell walk rapidly away from Mr. Dunn, when the latter summoned him at about 9:10 A.M. on July 3, 1933; that he attributed no significance to this until he had learned from Mr. Dunn about the car and the loan which the stranger had attempted to obtain on it. Deputy Sheriff James further stated that he then examined the car, noted that it bore 1933 District of Columbia license plates K-7941, and serial #E-6-WZ-97, as shown from Fedco plate on the instrument board, and engine #T-1442. James produced his notebook, in which he had made original entries as to these numbers at the time he examined this car. He was instructed to preserve this notebook for the purpose of refreshing his memory should he be called as a witness in this case. James further stated that before checking the assembly numbers on the car he and Dunn proceeded to the street corner around which the stranger had disappeared, but could see nothing of him; that after examining the car, and because of the stranger's peculiar actions, he became convinced that the car must be stolen, and therefore, made an effort to locate and apprehend O'Donnell. Knowing that a train was due to depart from Roswell for El Paso, at 9:45 A.M., he proceeded to the railway station in company with Dunn, who pointed O'Donnell out to him among a crowd of other people who were waiting for the train. James stated that at the time of O'Donnell's arrest he had in his possession a ticket for El Paso, Texas, which he had just purchased, according to the ticket agent. Mr. James stated that O'Donnell had no papers in his pockets by means of which he could be identified, and that he took particular note of the fact that O'Donnell's clothing bore no labels or other tailor's marks indicating the place of purchase. Also there were no initials in the sweatband of his hat, and it seemed very peculiar to Deputy Sheriff James that he should be thus without any means of identifying himself.

Roswell, New Mexico
July 5, 1933

I, Martin A. Burke, of 1415 Russell Avenue, Hoboken, New Jersey, make the following voluntary statement to J. L. Kensington, Special Agent, Division of Investigation, U. S. Department of Justice, after being told by him that I cannot be required to make a statement and that any statement which I do make may be used against me:

On June 26, 1933, I arrived in Washington, D. C. from my home in Hoboken, New Jersey, where I have heretofore resided with my mother, Mrs. Thomas B. Burke. At the time of my departure from Hoboken, New Jersey, I had decided to go to Los Angeles, California for the purpose of attempting to secure employment. I had ridden freight trains and hitch-hiked from Hoboken, New Jersey to Washington, D. C., as I had only \$45 in cash at the time I started on this trip.

In Washington, D. C. I found it difficult to catch another freight train for the reason that the freight yards are carefully watched by railway police. I was run out of the freight yards in Washington by a watchman on the night of June 27th, and I decided to steal an automobile in order to get to Los Angeles, or as far in that direction as possible. I do not know the names of the streets in Washington, but I walked around town until I saw this Marmon Sedan with which I was arrested at Roswell, New Mexico. The car was parked in the business section of Washington, on a side street around the corner from the Earle Theater. I know this because I remember seeing the theater sign at about 9 P.M. on this date, just before I took the car.

I found both the doors and the transmission on this car to be unlocked, and I got in it and drove away. I remember stopping at Frederick, Maryland, sometime before midnight on the night I stole this car. There I learned that the best route for St. Louis, which I followed, would be by way of Cumberland, Maryland to Wheeling, West Virginia,

Cincinnati, Ohio, and on through St. Louis. I drove continuously in this car, stopping only for gasoline and oil and for something to eat, until I reached a point near St. Louis, known as Webster Grove, Missouri. On a side road shortly beyond Webster Grove, I slept all night in this car, and the following day proceeded west. I went through Kansas City, Topeka and Wichita, Kansas. At night, I would park alongside the road and sleep in the car. I arrived in Amarillo on July 1, 1933, and after sleeping another night in the car proceeded on to Roswell, New Mexico, arriving in Roswell at about 6 A.M. on July 3, 1933. My money was running low and I thought I did not have enough money to buy gasoline and oil for this car and to furnish myself with enough to eat until I got to Los Angeles. I had only \$20 left in cash when I arrived in Roswell, New Mexico.

I, therefore, decided to procure a loan on this car if I could and to go on to El Paso by rail and from there to Los Angeles, if I could not find work in El Paso. I saw a sign on the window of a business office in Roswell which stated that money was loaned on automobiles. When a man opened this place of business at about 9 A. M. I asked him for a loan on this car, telling him that my mother was sick in Los Angeles and I needed the money to get there quickly. He agreed to lend me \$300 on this car, but said he would have to have my title to it checked by a Deputy Sheriff, who was standing across the street. He called to this Deputy Sheriff and I became frightened and left.

This is the first time I have ever been arrested and it is my intention to enter a plea of guilty to the theft and transportation of this car from Washington, D. C. to Roswell, New Mexico.

I have read the above statement, consisting of three pages, and I acknowledge the same to be true and

During the course of the interview with Martin A. Burke, the following physical description of him was obtained:

Name	Martin A. Burke alias James O'Donnell
Age	39

On the afternoon of July 3, 1933, the fingerprint impressions of Martin A. Burke were taken by Deputy Sheriff Steve James, and forwarded by mail to the Division of Investigation in Washington. The serial number on this set of fingerprints is Sheriff's Office, Roswell, New Mexico, #419. A specimen of the subject's handwriting appears on the fingerprint card. No facilities for photographing the subject were available. A request has been made by letter for the criminal record of Burke.

Each of the above named Trainees fired the regulation course of the .33 caliber Springfield Rifle and each of them fired 5 shots with the 12-gauge automatic shotgun and from 20 to 50 shots each with the Thompson Sub-Machine Gun. The firing of the shotgun and machine gun was at approximately 50 yards at a silhouette target. This instruction enabled each man to see how effective these weapons really are.

Due to the inclement weather on the morning of November 14, 1953 Special Agents (Trainees) McGarraghy, McLawhen, Rosen, Scott, [redacted] and Tracy were prevented from having an opportunity to qualify with the pistol, nor were they able to receive instruction in firing the regulation course with the .33 caliber Springfield Rifle; however, each of them fired 5 shots with the 12-gauge automatic shotgun and from 20 to 50

-2-

shots each with the Thompson Sub-Machine Gun at a distance of approximately 50 yards, each man firing at a silhouette target in the same manner as above described.

It is suggested that probably arrangements can be made for the last named group of Trainees, together with Special Agent (Trainees) Abbaticchio, Donegan and [redacted] who failed to qualify, to have an opportunity to qualify on the Metropolitan Police Department Pistol Range either after 3 p.m. or at night during the week beginning November 20, 1933.

Director,

Dear Sir:

Special Agent A. Rosen reported to this office from the Division Training School at Washington on November Twenty-sixth. Since that time he has been assigned to investigations of a general nature, best suited for training. He presents a splendid appearance, is a neat dresser, possesses a good personality, and appears to be of the intellectual type. He will probably be better adapted to the handling of such classes of case as Bankruptcy and Antitrust, rather than the police type of investigation.

The cases assigned to him have been handled in a satisfactory manner and have required no greater degree of supervision than might be expected. He possesses an excellent attitude toward his work, performs considerable overtime duty voluntarily and solicits constructive criticism, dictates concise, clear reports, and appears to pay considerable attention to details.

I believe that if this Agent continues to develop, he will reach a degree of efficiency above that of the average agent.

Agent Rosen came to the New York office at ten o'clock one evening recently and asked if it were too late for him to go to a theater, stating that he had made dates for [redacted] and [redacted] and that they and two girls were at the apartment. It is requested that this information not be used as it would prove embarrassing.

b6
b7c

Agent Rosen seems to be taking an interest in his work. He is at the office late in the evening.

January 16, 1934. Agent Rosen is loyal to the Director and the Division. He stated that he thinks the Director has a dynamic personality and that he is proud of the fact that he is an employee of the Division. He stated that he is going to do his very best for the Division as he is proud of the fact that he is working under a man like the Director. He stated that when the Director walked in the classroom at the school in Washington he could just feel him "take the place over" and that after meeting the Director he could understand why he has heard the work of the Division praised so often.

His general appearance is very good; he dresses in a neat but conservative manner and is neat and tidy at all times.

Agent Rosen seems to take a great deal of interest in his work and from all appearances he will probably develop into an efficient and reliable investigator. He seems to be of the average intelligence and is a willing worker at all times. This agent is not over talkative and he has never mentioned a political contact to my knowledge. He apparently "sees" the Division and is not the type agent who finds fault with any rule of the Division. Agent Rosen stated that he has been in New York City on numerous occasions before he entered the services of the Division and that he has a number of friends in the city, although he has not seen any of them since he has been assigned to the New York office.

Re: A. ROSEN - SPECIAL AGENT
Special Efficiency Report

Dear Sir:

The above-named Special Agent has been attached to this Office for slightly less than thirty days. Orders have been received, directing his transfer to the Washington Field Office. As you know, Special Agent Rosen was designated as "No. 1 Man" in this Office.

A young man approximately 28 years of age, Mr. Rosen possesses a very pleasing personality and is one of the most gentlemanly Special Agents the writer has contacted with for some time. Mr. Rosen appears to be well versed in the rules and regulations of the Division and is well grounded generally in the work of the Division. He appears to be a young man who is thoroughly interested in his work--so much so, that, of his own volition, he devotes considerable time after hours to study of cases assigned to him.

Mr. Rosen is a diligent worker and appears to be given to strict attention to detail. He writes an excellent letter and prepares a good report, which he dictates rather rapidly. There is no question in the mind of the writer but that Mr. Rosen is an exceptionally loyal employee, and one more or less endowed with administrative capacity with an aptitude for office work. The writer can unhesitatingly recommend him to the Division as a Special Agent who should be borne in mind when vacancies occur in any of the executive positions. While it is true that Special Agent Rosen has had comparatively little field experience, having been appointed to the position which he now holds in the Division in November 1933, he is, in the writer's opinion, qualified to handle any type of investigation within the Division's jurisdiction, with the exception of those investigations which might be considered dangerous in character. Mr. Rosen is a marksman with the pistol.

RECORDED

but it is the writer's view that his refined nature temperamentally unsuits him for the more or less rough, Police type of work which the Division is now being called upon to perform.

Mr. Rosen is a willing worker and one who is amenable to discipline and susceptible to training and instruction. He is the type of individual who, through outside efforts, would attempt to master the details of any position in which he might be placed. It is the writer's impression that Mr. Rosen is a dependable and trustworthy employee, and one in whom implicit faith and confidence might be placed. He is prompt in handling assignments given to him, which he takes cheerfully, and submits reports on investigative matters delegated to him, without delay. It is the writer's opinion that Mr. Rosen could function effectively and efficiently as a Supervisor.

During the writer's absence from the Buffalo Office recently, while attending a trial in San Francisco, Mr. Rosen was the Acting Special Agent in Charge. He seemed to be thoroughly familiar with the administrative system and handled matters during the writer's absence in a thoroughly satisfactory manner. He seems to possess initiative and aggressiveness and is willing to assume responsibilities, evidently possessing the knack of disposing of a volume of business with little or no delay.

The writer feels that Mr. Rosen, with a little more training and experience, could qualify for the position of Special Agent in Charge, and suggests to the Division that it might be desirable to train him with this in view.

Very truly yours,

MEMORANDUM FOR THE DIRECTOR

RE: SPECIAL AGENT A. ROSEN
THIRTY DAY REPORT.

During the time that Mr. Rosen has been assigned to the Division, he has been handling the supervision of the Dillinger case. Although specifically and repeatedly instructed by me to maintain a running memorandum upon this case which would be immediately available for release in the event Dillinger should be captured, this memorandum was not so prepared. On various occasions during the past two weeks, I have asked Mr. Rosen if this memorandum was being maintained and was available for use whenever necessary and Mr. Rosen stated that the memorandum was prepared and ready for use. As you are aware, this memorandum had not been prepared.

As various situations arose subsequent to the capture of Dillinger, it became very apparent that Mr. Rosen was not as familiar with the facts and identity of the various people in this case as he should have been. I believe that this situation reflects unfavorably upon his administrative ability despite the fact that he has been in the Division's service a comparatively short time.

Mr. Rosen has some difficulty in dictating, evidently due to inability to properly marshal his facts prior to dictation. I do not believe that the Division's welfare or Mr. Rosen's development would be best served at the present time by retaining Mr. Rosen in a supervisory capacity and recommend that he be returned to a field assignment where he may obtain additional experience. I believe that he would best function in one of the smaller Division offices.

Dear Sir:

In compliance with Section 34 of the Manual of Rules and Regulations, the following report is submitted with reference to Special Agent A. O. Rosen, who reported to this office August 14, 1934.

Agent Rosen makes a nice appearance, is very courteous, and possesses a pleasing personality. I have been impressed with his sincerity and the industry with which he applies himself. He voluntarily puts in long hours of over-time work. He appears to have the average knowledge concerning all the duties of his position which might be expected from an agent who has only been in the service a few months. He appears to be tactful, diplomatic, and to possess good judgment. His investigative work, since his assignment to this office, has been confined almost entirely to War Risk Insurance cases, in view of the volume of that classification of work in the New Orleans office, and he is presently assigned exclusively to this type of work in the Southern District of Mississippi. He has demonstrated a good knowledge of the proper way to handle War Risk Insurance cases. He is qualified in the use of firearms, and his dictation is only fair. I have had no opportunity to observe his effectiveness as a witness in the trial of a case.

I believe that with further experience this agent will develop into a better than average agent.

Very truly yours,

R. Whitley,

Re: Alex Rosen, Special Agent;
Special Efficiency Report.

Dear Sir:

In conformance with Section 34 of the Manual of Rules and Regulations, and Division Bulletin #34, Fiscal Year 1935, First Series, the following special efficiency report is submitted relative Special Agent Alex Rosen:

Agent Rosen has a pleasing personality and possesses attributes of youth, energy, enthusiasm, interest, ambition, and gentlemanly conduct. He has had about twelve months' experience as an agent with the Division, seems to have a good working knowledge of all phases of Division activities including knowledge of law, court procedure, and processes. For the last two months he has been engaged chiefly on investigative matters relating to War Risk Insurance cases and has made a creditable showing. He writes a well worded letter and report but is somewhat slow in marshaling his facts for dictation.

On regular assignments he has shown an abundance of initiative and initiative in instituting the necessary court action. He has an aggressive, positive nature and is impressive in conversation.

Mr. Rosen appears to have ability above the average agent in the Division in the same length of service, but does not have sufficient drive to carry forward his investigations without supervision. He appears to have a tendency to coast at times, although he works long hours.

His willingness to assume responsibilities and act on his own initiative without informing the office of his activities, on one occasion, resulted in countermanding an instruction. When this matter was brought to his attention he satisfactorily explained the situation through a misunderstanding. He will be placed under observation in an effort to control his natural instincts to act on his own initiative without informing his office of the developments of his investigations. He has always responded favorably to suggestions and instructions.

Agent Rosen lacks well balanced experience necessary to engage in raids of a delicate nature. He is fairly proficient in the use of firearms and has shown zest and interest in their use. Agent Rosen is not very thorough in his investigations, sometimes assuming the existence of facts. This is probably occasioned by his lack of experience.

Agent Rosen gives the impression of sincerity, interest, and loyalty, and may develop executive ability after a few years' additional experience necessary to acquire seasoned and mature judgment. He appears suave, tactful, and diplomatic in his conversations and is considered a valuable employee to this office..

AL ROSEN

Al Rosen, 31, native Clevelander, yesterday took charge of the Cleveland office of the Federal Bureau of Investigation, succeeding Theodore N. Stapleton, resigned to join the legal department of E. I. du Pont de Nemours & Co. with headquarters at Wilmington, Del.

Since joining the bureau in 1933 Rosen has spent most of his time as an administrative assistant to Director J. Edgar Hoover in Washington.

He is a graduate of the Cleveland Heights High School and attended the law department of Ohio State University and the Cleveland Law School here, from which he was graduated.

Asked what major cases he had been assigned to, Rosen replied:

"It is the policy of Director Hoover to take personal charge of all major cases and he is always on the ground working with the agents in such cases, and he likewise co-ordinates the work of the field offices and assigns agents to different cases, so that in time all of the men get out in this way on the major jobs."

Rosen lives at 2544 Overlook Road, Cleveland Heights. He is a bachelor.

In June of this year Special Agent in Charge [redacted] stated that he is a diligent worker, prepares a good report, dictates rather rapidly, and was believed to be loyal, and more or less equipped with administrative capacity with an aptitude for office work. He handles his work promptly and it is believed that he could effectively and efficiently function as a Supervisor.

He was assigned to Unit One on June 17, 1934 and in July a memorandum was submitted by Mr. Tamm stating that Rosen had been supervising the Dillinger case and although he had been repeatedly instructed to maintain a running memorandum on this case, the memorandum was not so prepared; that he was not familiar with the facts and identities of various persons connected with the case and Mr. Tamm thought this reflected upon his administrative ability; that he encountered some difficulty in dictating and it was recommended that he be transferred to a field assignment in order to obtain additional experience.

Then multiply each separate grade given in each separate qualification by the respective number indicated in the column headed "Relative Weight." Extend the figure obtained for each separate qualification into the column headed "Total." Add all the figures in the column headed "Total" and divide this sum by 20 to arrive at the final rating.

REMARKS:

(Under this heading shall be set forth a digest of criticisms and conditions of significance which will reflect deficiencies, meritorious features, and special qualifications or disqualifications.)

Agent Rosen appears to be loyal and conscientious and to have a real interest in his work. I believe that his knowledge of all of the duties of his position is better than that of the average agent who has been in the Division an equal length of time. He is intelligent, appears to possess mature judgment, and to be diplomatic. He possesses a pleasing personality and makes a nice appearance, and applies himself diligently to his work. His reports are generally satisfactory. I believe that with further training and experience he will develop into a better than average agent. He is familiar with and qualified in the use of the various types of firearms. I have had no opportunity to observe his effectiveness as a witness in the trial of a case.

If deficiencies or disqualifications have been noted under "Remarks," have you brought them to the attention of the employee prior to the rendition of this rating? Yes.

MEMORANDUM FOR THE DIRECTOR

Re: T. L. Evans - Victim;
Extortion.

I telephoned [] at the New Orleans Office in regard to the above case and informed him that we had received a protest this morning concerning the handling of the case by Agent Rosen. The complaint has been made that Rosen left there without completing the case and stated that he just couldn't solve the case because there was nothing to it. Mr. Kindell stated that this is absolutely untrue.

Mr. Kindell advised that the first extortion note received in this case by Mr. Evans had actually been received subsequent to the time designated for the insertion of an advertisement in a Lafayette, Louisiana newspaper indicating a willingness on the part of Mr. Evans to pay the amount named in the extortion note. An advertisement was, however, placed in the paper, and Agent Rosen remained in Lafayette until Wednesday, March 6, 1935 checking leads as to possible suspects and awaiting the receipt of additional extortion notes, which were, however, not received. The facts of the matter were transmitted to the police department, and Mr. Evans was politely informed that the Bureau could not under the circumstances maintain an Agent in Lafayette indefinitely when there were no further developments in the case. Mr. Evans was instructed that in the event any additional extortion notes were received by him, he should immediately communicate by telephone with the New Orleans Office and an Agent would be sent to Lafayette immediately.

Time - 10:50 A.M.

[] telephoned me about the above matter and informed that he had just communicated with Agent Rosen at Alexandria, Louisiana and Rosen informed Evans yesterday morning that everything had been done that could be done awaiting the receipt of further letters. Evans was then talked to by Mr. LeBlanc, Chief of Police at Lafayette, who is known to [] and who is known to be a very high type officer, who explained to him that it was not possible to foresee developments, and it would thus be impractical to keep an Agent in Lafayette awaiting those developments. Later in the afternoon, Rosen was again talked to Evans, and Evans informed at that time that he had called one of his friends, who is very well acquainted with the United States

Congressman Montet of Louisiana called me this morning stating he received a telephone call yesterday from Mr. T. L. Evans, a banker of Lafayette, Louisiana, concerning an extortion note received by Mr. Evans last week which was being investigated by Special Agent Rosen of the New Orleans Office.

Congressman Montet stated that Mr. Evans informed him that Mr. Rosen went on back to New Orleans yesterday stating that he had been unable to discover any clues in connection with the extortion note and apparently has discontinued the investigation. Mr. Evans indicated to Congressman Montet that he did not feel the case was being given proper attention.

I spoke to Mr. Tamm concerning this matter and asked him to call the New Orleans Office for the purpose of determining just what the situation was with respect to this investigation. I promised Congressman Montet that we would advise him of the developments in the matter.

MEMORANDUM FOR THE DIRECTOR

Re: ALEX ROSEN,
Special Agent.

Entered on duty October 16, 1933. Salary \$3300. Office preference - None.

Agent Rosen attended the first re-training class for four weeks in Washington. On the written examination, he made a grade of 95 per cent. He made 85 per cent in revolver training.

Agent Rosen appears possessed of enthusiasm, interest and loyalty. He makes a splendid personal appearance; is possessed of above average personality, and I believe that he has made good progress since his entrance in the Bureau. He apparently failed to make the proper impression while acting as supervisor in Washington, although I feel that Rosen possesses such ability, tact, enthusiasm and interest as to justify the belief that he makes a creditable representative of the Bureau in the field. His questions during the training school and his application to the work would further confirm the above impression.

H. H. Clegg.

REMARKS

Agent in Charge Magee reports that Agent Rosen has developed in his knowledge of the work, is aggressive, uses initiative, accepts responsibility when confronted with a problem in the field and has improved in his deficiency of failing to fully inform his Agent in Charge of his activities upon his return to headquarters. He states that Agent Rosen is neat, has a pleasant personality, possesses poise, has mature judgment, secures the confidence and respect of peace officers; that Agent Rosen works late hours on investigative duties, has handled several extortion cases with successful results and is an ambitious and loyal employee of better than average ability. Mr. Magee recommends an increase in salary.

 (Title) (Grade) (Salary)
 Entered Bureau service October 16, 1933 Entered on duty this office August 13, 1934

Consider carefully these definitions, keep them in mind when rating, and compare the employee with all others in the same position for the entire service:

To what degree has he exhibited the following qualifications? Consider him in comparison with others in the same position for the entire service.

	GRADE	RELATIVE WEIGHT	TOTAL
KNOWLEDGE: Extent of information concerning all duties of his position; ability to analyze cases; practical application of intelligence and educational training; readiness of comprehension	84	7	588

In the column headed "Grade" give a separate rating between 0 and 100% for each qualification, as explained at the beginning of the sheet under definitions of Inferior, Unsatisfactory, Fair, Good, and Excellent. Then multiply each separate grade given in each separate qualification by the respective number indicated in the column headed "Relative Weight." Extend the figure obtained for each separate qualification into the column headed "Total." Add all the figures in the column headed "Total" and divide this sum by 20 to arrive at the final rating.

REMARKS:

(Under this heading shall be set forth a digest of criticisms and conditions of significance which will reflect deficiencies, meritorious features, and special qualifications or disqualifications.)

Agent Rosen has developed in his knowledge of the duties of the Bureau and has been enthusiastic and energetic in the investigative work in the field, where he has been chiefly engaged. He is aggressive, uses initiative, and accepts responsibility when confronted with a problem in the field, but was prone to not fully inform the Agent in Charge of his activities until his return to headquarters. He has improved in this respect, however, and now reports his movements and investigative steps with regularity. He possesses ample self-confidence, is forceful, and has an ambitious nature. He is neat, has a pleasant personality, and possesses poise. His judgment is mature for his years and he secures, through his forcefulness, the confidence and respect of officers with whom he comes in contact. He sacrifices reporting his cases promptly and procrastinates in submitting rough draft reports on completed investigations, for his desire to continue his investigative activities. However, a survey of his hours of active duty in the field indicates that he works late hours on investigative duties. He has been cautioned in this respect and has shown decided improvement. He has typing ability and submits good typewritten rough drafts, and he also appears by nature to have ability to function properly while conducting raids, and has fair ability and knowledge of the use of firearms.

Agent Rosen has been engaged on general assignments, including War Risk Insurance cases, and has handled these assignments in a satisfactory manner. He has handled several extortion cases with successful results. He will be assigned a bankruptcy case in the near future for determination of his ability to conduct such investigation from its inception.

I consider Agent Rosen as an ambitious and loyal employee to the Bureau, of better than average ability. I have not had an opportunity to observe his effectiveness as a witness in the trial of a case.

I desire to recommend an increase of salary for Special Agent Alex Rosen.

If deficiencies or disqualifications have been noted under "Remarks," have you brought them to the attention of the employee prior to the rendition of this rating? Yes

Franko, P. E. - Excellent.

He was very systematic and thorough in his search, and submitted a detailed report on the evidence found, and also set out detailed leads which showed a good analysis of the evidence found.

Roach, A. - Fair.

He did not display a great deal of initiative in the search, but was thorough in what he did. His report merely lists items found but draws no conclusions as to names and addresses of relatives of the fugitive which could have been drawn from the items found.

Smith, R. J. - Good.

His search was systematic and thorough, and his report was good. He set out leads for further investigation as well as an analysis of the items found.

Sloan, R. G. - Good.

His search was very thorough and systematic, and he listed all of the items found in his report, as well as discussing the value of the various items.

Wallace, J. H. - Fair.

He organized a systematic search and was very thorough in what he himself did. His attitude, however, gave the impression that he considered the search something to be gotten through with and out of the way as soon as possible. While his report lists all of the items found and suggests some undeveloped leads, it fails to correlate the various items of evidence.

Wynn, F. J. - Good.

His search was thorough, and in his report he lists all of the items found and indicates their significance.

Respectfully submitted,

W. A. SMITH.

Dear Sir:

In reply to Bureau letter dated July 23, 1935, concerning the bankruptcy qualifications of Special Agent A. Rosen, please be advised that this Agent was at the field office for only a few days and was not assigned any bankruptcy work in this district. Accordingly, I am not informed as to his qualifications to handle this particular type of case, although from his general knowledge of the work, appearance, approach and personality, there is in my mind no doubt whatever that he could handle bankruptcy work just as efficiently as he is known to have handled other types of cases.

Mr. Rosen for the past 30 days has been assigned to the supervision of Departmental applicant, National Motor Vehicle Theft Act and various minor classifications of cases. He has displayed a decided capacity and ability for work of an administrative nature, and I feel that the quality of his work in this regard has been greatly benefitted by his assignment to field duties for the past year. At the present time Mr. Rosen's main weakness is his inability to determine a fixed course of action in a particular situation, and to adhere to his own decision. I feel that this tendency is the result of a lack of self-confidence due to a feeling of inexperience. Such a tendency will, I believe, be overcome by a continuation of his assignment to supervisory duties at the Bureau, in order that his experience may crystalize. I recommend that Mr. Rosen be continued in a supervisory capacity. This man is not capable of assuming the duties of an Acting Special Agent in Charge of a Bureau field office at the present time.

Respectfully,

E. A. Tamm

Attached hereto is a letter dated August 2, 1935, from the Washington Field Office, stating that there is no doubt that Agent Rosen could handle bankruptcy investigations in view of his general knowledge of other work, his appearance, approach and personality.

This Division is aware of only one bankruptcy case on which Agent Rosen has performed investigative work and that was over a year ago. The investigation of that case was not conducted by Agent Rosen from the beginning to its conclusion.

In view of the foregoing, it is not believed that Agent Rosen should be qualified in this type of work.

There are a number of other supervisors at the seat of Government who are in the same position as Agent Rosen, and any expression of your views in regard to qualifying these Agents would be appreciated.

Respectfully,

Re: ACCIDENT TO BUREAU HODSON
AUTOMOBILE No. 11, License
No. 87196

Dear Sir:

Your attention is invited to the above mentioned accident which occurred near Amelia, Virginia, on July 27, 1935, at which time you were acting as Special Agent in Charge in the Washington Field Office.

The Bureau has reviewed the papers in connection with this matter and it has been ascertained that authorization for the repairs were given to Kirkmeyer Brothers Garage without this Bureau's being so informed.

For your information, I desire to bring to your attention the fact that in the past the Bureau has found it necessary to call matters such as this to the particular attention of the Field Offices in order that appropriate authority might be secured from the Bureau before any repairs for large amounts could be made. It is noted from a review of the file in this matter that Agent Smith at the suggestion of Agent Snow had the Bureau owned automobile towed to Kirkmeyer Brothers at Richmond and a preliminary examination of the car indicated that repairs would amount to between \$250 and \$300. The file reflects further that on the morning of July 30 Special Agent Smith verbally informed you of this estimate. Agent Smith stated that you approved his action in having the car towed to Richmond. The first information the Bureau received concerning this accident was on August 19, 1935, at which time it is reasonable to assume that repairs were well under way.

Had the seriousness of this accident been reported to the Bureau as it should have been reported immediately after the accident, it is very doubtful whether the Bureau would have authorized any repairs being made to the car in question. Had

RE: ACCIDENT TO BUREAU HUDSON
AUTOMOBILE No. 11, License
No. 87196.

Dear Sir:

With reference to the above mentioned automobile accident, there is enclosed a copy of a communication which has been forwarded to Special Agent (A) R. B. Smith. It will be necessary for Agent Smith to make arrangements for defraying the expenses of these repairs with the Kirkmeyer Brothers Garage.

In regard to this accident the Bureau desires to inform you that this matter was not properly handled by your office at the time it occurred. I am sure that you well knew that repairs approximating the amount of this accident should not under any circumstances be made without first securing approval of the Bureau. This has been a matter of correspondence with the Field in the past and it should not be necessary for the Bureau to bring it to your attention again.

It is understood that there is no correspondence covering the repair of this car included in the Washington Field Office files, and it appears that Acting Special Agent in Charge Rosen did not authorize repairs and that neither you nor Special Agent Hickey had any knowledge of the amount involved. It is desired that Special Agent ~~C. J. Smith~~, it appears, instructed Special Agent Smith to have the car taken to Kirkmeyer Brothers at Richmond for repairs, should be informed very definitely as to the authority of Special Agents in the Field regarding repairs to Bureau owned automobiles. There was no reason to believe that these repairs were of an emergency nature and it was reasonable to assume that the Agents working on the case could not under any circumstances have remained in Richmond awaiting the completion of the repairs in question.

Even though at the time of the accident's being reported to your office, you had no knowledge of the extent of the damages to the car, the Bureau believes that it was the duty of the Acting Special Agent in Charge at that time to definitely ascertain the

67-286-413

amount of the repairs and secure the appropriate authority before any contract was let to have the necessary repairs made.

I trust that you will bring this to the attention of all concerned and I hope that it will be unnecessary to call matters such as this to your attention in the future.

Very truly yours,

John Edgar Hoover,
Director.

Memo for the Director

-2-

3/7/35

Attorneys both at New Orleans and Shreveport, Louisiana, about the case, and at this time, Rosen again talked to Mr. Evans and again tried to assure Mr. Evans that everything that could be done at that time had been done, and when Rosen left Lafayette about 7:10 P.M., last evening, everything appeared to be all right. Mr. Rosen informed that he had handled Mr. Evans with every care and consideration for the reason that Evans is one of the most disliked men in the community.

[redacted] further informed that this morning Chief LeBlanc of Lafayette telephoned him and informed him that another note had been received by Mr. Evans in this morning's mail. [redacted] stated that he had instructed Rosen before he left Lafayette last evening to call at Western Union at Alexandria for instructions. Rosen did call at this place in Alexandria, and it was in this manner that [redacted] got in touch with him to inform him of the receipt of the extortion note this morning, and to instruct him to proceed back to Lafayette to take care of the matter. He advised that the note which was received this morning was postmarked yesterday at Lafayette and gave instructions to insert an advertisement in the paper yesterday; that, however, the paper was on the streets when the letter was received. [redacted] stated that he told Chief LeBlanc to place the advertisement in the next paper with a note stating that the instructions had been received too late to be included in yesterday's paper. [redacted] stated that Rosen will arrive in Lafayette sometime this morning.

In the column headed "Grade" give a separate rating between 0 and 100% for each qualification, as explained at the beginning of the sheet under definitions of Inferior, Unsatisfactory, Fair, Good, and Excellent. Then multiply each separate grade given in each separate qualification by the respective number indicated in the column headed "Relative Weight." Extend the figure obtained for each separate qualification into the column headed "Total." Add all the figures in the column headed "Total" and divide this sum by 20 to arrive at the final rating.

REMARKS:

(Under this heading shall be set forth a digest of criticisms and conditions of significance which will reflect deficiencies, meritorious features, and special qualifications or disqualifications.)

For the past several months Mr. Rosen has been assigned to the supervision of National Motor Vehicle Theft Act and Departmental applicant investigations and I have also used him in emergencies on the War Risk Insurance and Extortion desks. He has displayed a comprehensive knowledge of the Bureau's work and a decided capacity and ability for work of an administrative and executive nature. He has, however, not yet acquired sufficient self-assurance in matters of official procedure, and consequently, I believe that he will require considerable more seasoning before he can be considered for an Agent in Charge position or other assignment requiring him to proceed without guidance and instructions entirely upon his own initiative. I believe, however, that Mr. Rosen's development has been entirely satisfactory and I recommend that he be continued at the Bureau as a supervisor.

Mr. Rosen is enrolled in the Bureau's accounting course, but is not qualified in bankruptcy or wiretapping. He has attained the degree of expert in marksmanship qualifications.

If deficiencies or disqualifications have been noted under "Remarks," have you brought them to the attention of the employee prior to the rendition of this rating? _____

Rating Officer.

MEMORANDUM FOR THE DIRECTOR

Reference is made to the attached letter of the Special Agent in Charge of the Indianapolis, Indiana, office of this Bureau, relative to the distribution of Identification Orders to those banks insured by the Federal Deposit Insurance Corporation, as the result of instructions contained in Bureau Bulletin Number 250, Second Series.

In explanation of the delinquency in answering this letter, please be advised that this matter was handled in the regular course of business after the definite policy to be followed relative to matters of this nature was determined after appropriate discussion. Inasmuch as the substance of this letter does not concern a matter which is of an expeditious nature, the writing of the outgoing communication was handled in a routine manner. It is my opinion that other outgoing mail received preferred attention in view of the nature of the communication. However, I believe that the writer should have been able to transmit the information contained in this communication to the field at an earlier date.

Respectfully yours,

A. Rosen

MEMORANDUM FOR THE DIRECTOR

Re: Delinquency in Acknowledging
Communication under date of
December 21, 1935, from Mr. Joseph
From, The South Bend News-Times,
Michigan Office, Mishawaka, Indiana.

Mr. Joseph From addressed a letter to the Bureau which letter is attached hereto. This letter was received in Division One on December 26, 1935, at 11:10 A. M. Immediately upon receipt of this letter in Division One, it was necessary to check the Bureau's files to determine whether there was any previous correspondence which related to the correspondent. The letter was returned to the writer on December 30, 1935, and inasmuch as matters of a more expeditious nature were handled in preference to the instant letter, an answer was not dictated until January 2, 1936. The letter was returned to the writer for approval on January 3, 1936, under date of January 4, 1936, at which time it was mailed to the correspondent.

The delay in the answering of this letter was apparently due to the fact that the week ending December 2, 1935, and the New Year's holiday intervened between the time the letter was received in Division One and when the letter was finally transmitted to the correspondent, together with the fact that matters of a more expeditious nature received preferred attention.

Respectfully,

W. A. Rogen. V

MEMORANDUM FOR MR. FOXWORTH

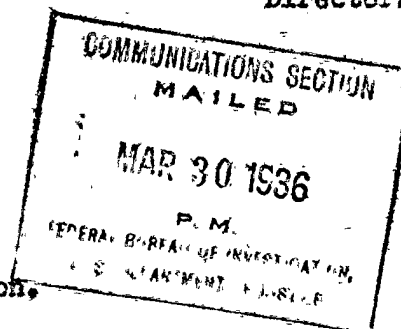

I have just read the attached memorandum of Supervisor Rosen, in which it appears that in making the original inquiry concerning Arch W. Loney, Mr. Rosen failed to inquire of the Identification Division as to whether there was any record upon this man. This certainly was a grievous mistake and error. I want specific instructions issued to all supervisors that whenever an investigation or inquiry is initiated, both the investigative and identification files should be searched first to determine whether there is any record upon the individual about whom inquiry is being made. It would seem to be elementary that this procedure should have been followed in all cases, but obviously some supervisors are not doing it. We have a wealth of material available in both of these files upon hundreds of thousands of persons, and we certainly should utilize our original sources of information first.

Will you please see that an appropriate letter is addressed to Mr. Rosen, indicating my displeasure over the manner in which he handled this matter, which was a very important matter and should have been handled with a greater degree of thoroughness and intelligence.

Very truly yours,

John Edgar Hoover,
Director.

On February 24, 1936, Corporal Horn and Stenographer Conover of the New Jersey State Police, who on that date began an examination of the reports contained in the Bureau's files concerning Dr. Condon, requested the writer that the New Jersey State Police be informed of the character; reputation, general background, and professional experience of Arch W. Loney inasmuch as his name was mentioned during the trial of this case by Edward Reilly, chief defense counsel for Hauptmann.

Pursuant to authority granted me by Mr. Tamm, I requested this investigation of the Washington Field Office. The request was made verbally to me by Corporal Horn and he particularly stressed the fact that it was desired that attention be made particularly to Loney's experience in the lumber business and that it be determined whether he was a wood expert. The investigation conducted by the Washington Field Office disclosed the information contained in the writer's memorandum of March 27, 1936.

On March 28, 1936, Mr. William Kishpaugh telephonically communicated information concerning Loney. Kishpaugh stated that he had information concerning Loney to the effect that Loney had been arrested on a charge of bad checks in Pittsburgh during the year 1927 or 1928. Immediately after this information was received, I requested Mr. Martin of the Identification Division to ascertain whether a criminal record could be located in the Identification Division. Mr. Martin informed me that Loney did have a criminal record on file and that he was arrested on February 3, 1928, by the Pittsburgh Police Department. I examined the photograph contained on the fingerprint record of this person, and the photograph appearing thereon appeared to be identical with the photograph appearing in the news dispatches of recent date, with the exception, however, that Loney's hair is now gray.

The first indication of a previous criminal record on this person was received by the Bureau on March 28, 1936, and was immediately checked by me. The information furnished by the Washington Field Office contained commendatory facts relative to the experience and reputation of Loney, and no further investigation was requested in other sections

of the country concerning Loney. Upon receipt of the results of the investigation from the Washington Field Office, the substance thereof was transmitted to the New Jersey State Authorities. A copy of the letter addressed to the New Jersey State Authorities is attached hereto.

The criminal record of Loney should have been checked in the Identification Division of this Bureau upon receipt of the results of the investigation made by the Washington Field Office, and I regret that this was not done.

Colonel H. Norman Schwarzkopf,
Superintendent, New Jersey State Police,
Trenton, New Jersey.

Dear Sir:

With further reference to the request of Corporal Horn, of your Department, for an investigation concerning the personal background of one Arch W. Loney, who is presently employed by the Federal Emergency Administration, Public Works, Washington, D. C., there are incorporated herein the results of the investigation of this person.

The personnel file of Arch W. Loney at the Federal Emergency Administration of Public Works, Washington, D. C., reflects that Arch Watkins Loney was born at Orange, Texas, on September 19, 1882; that he received his education at Waldens' Business College after having graduated from high school at Orange, Texas, in 1891. It also appears that he attended Spauldings' School, Beaumont, Texas.

From the references appearing in his application for employment with the aforementioned Federal Agency, it appears that the persons recommending Loney for his present position have stated that he had been occupied in the lumber business in various capacities from a laborer to an executive, during the entire period of his business life which extended for a period of approximately thirty years. It is the recommendation of those persons who wrote in behalf of Loney that he has a thorough knowledge of sources of supply of wood, grades and service qualities, and that he has had much experience in manufacturing, selling and distribution. It is alleged by the sponsors that he entertains a wide experience in manufacturing and distribution of building materials which has gained for him the reputation of being one of the leading authorities in the United States as to values and adaptability of proper usage of the various materials.

7/13/36

He is an untiring worker, a student, sincere and trustworthy.

At the present time Loney is employed in the capacity of office engineer at a salary of \$4,500 per year, and on January 19, 1934 was appointed to this position where he was to engage in the preparation of information on prices of materials throughout the United States to assist the Federal Emergency Administration of Public Works in checking the costs of material involved in Public Works Administration projects which are presently under way. In this capacity Loney has no immediate superior.

The records further indicate that there is nothing contained in the personnel file of Arch W. Loney to disclose that he was employed as an expert on wood and there is a specific statement to that effect, which is contained in a telegram dated January 24, 1935, addressed to Edward J. Reilly, Chief Defense Counsel for Bruno Richard Hauptmann, by Secretary of the Interior Ickes, which is quoted as follows:

"RETEL MR. LONEY IS EMPLOYED UNDER MY ADMINISTRATION AS COST AUTHORITY ON CONSTRUCTION MATERIALS. HE IS NOT EMPLOYED AS A WOOD EXPERT. SUGGEST YOU TAKE UP WITH MR. LONEY DIRECT."

The file further discloses that Loney corresponded with Chief Defense Counsel Reilly and with one F. S. McFarland, 870 West 181st Street, New York City, which correspondence revealed that on October 13, 1934, Mr. F. S. McFarland directed a letter to you in which he stated that he was a member of the Bronx County Grand Jury and in 1934 was on the New York County Grand Jury and, further, that the letter directed to you was being sent only in the interests of justice. Mr. McFarland suggested that Loney, as a wood expert, examine the ladder used in the Lindbergh kidnaping and, therefore, inasmuch as Loney was a wood expert, it was believed suitable to suggest that Secretary of Interior Ickes be contacted for permission to have Loney testify.

Very truly yours,

J. Edgar Hoover

Mr. A. Rosen,
Federal Bureau of Investigation,

Dear Sir:

I have just read your memorandum relating to your failure to inquire of the Identification Division as to whether there was any record of Arch W. Loney. This was a very grievous mistake and error. In preparing summary memoranda of any kind, both the investigative and identification files should be searched under the true name of the individual involved as well as any of his aliases to determine if there is any record about the individual concerned. This procedure is elementary for the reason that we have a wealth of material available in both the investigative and identification files upon hundreds of thousands of persons.

I want to express my extreme displeasure of the manner in which you handled this matter which was of the utmost importance and which you should have handled with a greater degree of thoroughness and intelligence.

MEMORANDUM FOR MR. TAMM

Re: Bremer Case

In compliance with your request, the delay in the handling of an outgoing communication addressed to the Washington Field Office reflecting a Laboratory examination of certain specimens in this case, was due to the fact that I was engaged in a compilation of the Lindbergh ransom lists which was to be given expeditious attention.

The incoming mail for signature was placed in the file basket with the other incoming mail and was assorted at approximately 4:00 P.M. on April 9, 1936. The communication in question was separated from the other mail in the basket, and my signature was placed thereon at approximately 4:15 P.M. It was then put in the outgoing basket and was not picked up until approximately 5:45 P.M. at which time I called a special messenger for this piece of mail and other outgoing pieces of mail.

I do not have the particular serial to which I refer, before me, but this statement is made according to my best recollection of the circumstances surrounding the incident.

MEMORANDUM FOR THE DIRECTOR

Special Agent Rosen is under transfer to the Washington Field office and I am ready to release him tonight. Mr. Coffey spoke to me this afternoon about utilizing the services of one of the Supervisors for about a week to assist the Laboratory in setting up individual files upon the various so-called criminologists throughout the country. You will recall that in our program of assembling all possible data concerning all alleged experts, we are reviewing the Bureau files on several thousand names which have been furnished us as being experts and I believe it would expedite this if Mr. Rosen were allowed to work with Mr. Coffey for about a week preparing memoranda on the various individuals mentioned in the Bureau files.

If you approve this recommendation, Mr. Rosen will be instructed to report to Mr. Coffey for a period not to exceed one week.

Respectfully,

E. A. Tamm.

REMARKS

Mr. Tamm states Mr. Rosen has displayed a commendable attitude and has worked very hard; that he possesses better than average qualifications and possibilities for executive responsibilities.

RECOMMENDATION

I recommend a promotion of \$200 per annum on July 1, 1936.

Clyde Tolson.

I concur with the above remarks as to the commendable attitude of Mr. Rosen and believe he endeavors to carry out whatever instructions he receives. I do believe he is lacking in initiative and does not display the necessary punch and aggressiveness. He is inclined to let someone else, if they will, assume the responsibility, taking the easiest way out. I do not believe that he will develop any executive abilities.

	GRADE	RELATIVE WEIGHT	TOTAL
KNOWLEDGE: Extent of information concerning all duties of his position; ability to analyze cases; practical application of intelligence and educational training; readiness of comprehension	89	7	623

In arriving at the above rating for an employee, consider each of the ten qualifications separately. In the column headed "Grade" give a separate rating between 0 and 100% for each qualification, as explained at the beginning of the sheet under definitions of Inferior, Unsatisfactory, Fair, Good, and Excellent. Then multiply each separate grade given in each separate qualification by the respective number indicated in the column headed "Relative Weight." Extend the figure obtained for each separate qualification into the column headed "Total." Add all the figures in the column headed "Total" and divide this sum by 20 to arrive at the final rating.

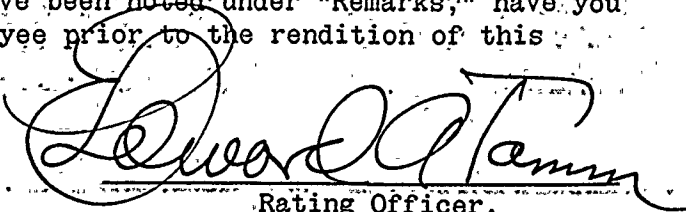

REMARKS:

(Under this heading shall be set forth a digest of criticisms and conditions of significance which will reflect deficiencies, meritorious features, and special qualifications or disqualifications.)

Mr. Rosen has been assigned for the past several months to the supervision of the Bremer and other Kidnaping cases. He, of course, has been laboring under a considerable handicap because of prior lack of knowledge of many of the ramifications of the Bremer case. He has, however, displayed a commendable attitude and has worked very hard upon this desk. I believe that he possesses better than average qualifications and possibilities as executive timber, and I will continue my efforts to develop in him the necessary characteristics for a Special Agent in Charge.

Mr. Rosen has qualified as an expert with the pistol.

If deficiencies or disqualifications have been noted under "Remarks," have you brought them to the attention of the employee prior to the rendition of this rating? _____

MEMORANDUM FOR THE DIRECTOR

Special Agent A. Rosen, who is under transfer to Louisville, has been held at the Washington Field Office pending a definite decision as to the trial of the Farnsworth case. Certain letters have been prepared and forwarded to Japan for the purpose of taking statements from the Japanese officers who formerly participated in Farnsworth's operations, and a definite decision has not as yet been reached for a trial date. In the meanwhile Agent Rosen has been used on other assignments, particularly the matter involving the Supreme Court, upon which he did an excellent piece of work. I believe it would be well to cancel Agent Rosen's transfer at this time and leave him assigned to the Field office, since his ability is such that he can be used on many matters arising here.

Respectfully,

E. A. Tamm

SUPERVISOR A. ROSEN

Cases handled by Mr. Rosen:

Bremer Kidnaping Case
Kidnaping
Kansas City Massacre Case
Dillinger Case and all Ramifications
Killing or Assaulting Federal Officers.

Field Experience:

Mr. Rosen has had very limited experience in the above cases, although he informs me that he has had considerable experience in extortion cases which he believes will be of value to him in the supervision of kidnaping cases.

Comments:

You have already approved the assignment of Special Agent K. R. McIntire to this desk. I believe that he will handle it in a much more satisfactory manner than Mr. Rosen.

Mr. J. M. Keith reports that this employee is all that the Bureau desires in a field agent; that he makes a good witness in court; drives an automobile well; is qualified in the use of firearms; is competent to participate in raids and to organize and lead others in the performance of such work. Mr. Keith states that he types sufficiently well to submit rough draft reports; is good in dictation; possesses a degree of executive ability; is enthusiastic, loyal, and will continue to develop with further service.

In 1936 Mr. Foxworth reported that Mr. Rosen in a supervisory capacity displayed a commendable attitude, but that he was lacking in initiative and did not display the necessary punch and aggressiveness. He stated that the employee was inclined to let someone else assume the responsibility. He did not believe that this employee would develop any executive abilities.

REMARKS:

(Under this heading shall be set forth a digest of criticisms and conditions of significance which will reflect deficiencies, meritorious features, and special qualifications or disqualifications.)

My brief observation of the work of Rosen during the temporary period of my presence at the Washington Field Office convinces me that he is all that the Bureau desires in a field agent. He makes a good witness in Court, drives an automobile well, is qualified in the use of Bureau firearms, is competent to participate in raids and to organize and lead others in the performance of such work. He types sufficiently well to submit rough draft reports, and is good in his dictation to stenographers. I think that Rosen possesses a degree of executive ability, and that he will continue to develop with further service. He is enthusiastic about his work, seems entirely loyal to the organization, and is well qualified technically for the position which he holds.

If deficiencies or disqualifications have been noted under "Remarks," have you brought them to the attention of the employee prior to the rendition of this rating? yes

Dear Sir:

In accordance with Section 34 of the Manual of Rules and Regulations, it is incumbent upon me to submit at this time a thirty day efficiency report on the above named employee.

Agent Rosen, while assigned to this division for the past four or five months, has been working entirely on special assignments, on which assignments he has shown marked ability. He makes a good appearance, possesses a pleasing personality, and seems to have a complete knowledge of the Bureau's investigative work. He is a loyal employee, a good dictator, appears to possess executive ability, and it is believed he will continue to develop.

MEMORANDUM FOR THE DIRECTOR

RE: SPECIAL AGENT
HAROLD RANSTAD

Referring to our conversations of yesterday, and this will confirm my statement to you that I do not consider Mr. Ranstad adapted for work on the subversive desk. It does not appear that he is able to seize the significance of the work or to distinguish between the important and the unimportant.

I gave him one month in which to do nothing but read so that he could obtain the background of the entire movement and despite his opportunity to familiarize himself with the entire situation, he has not grasped the work. He has dictated not more than two or three memoranda during the entire time he has been assigned to the subversive desk. He spends an undue amount of time reading the current newspapers, such as, the Daily Worker, the Sunday Worker and other similar publications. It appears that he is not able to dictate without first reducing to writing almost all of the material upon which he intends to dictate. By virtue of the extensive and voluminous character of the information received on the subversive desk, it is highly important to be assisted by an Agent who can analyze the facts and keep them organized in his mind while dictating without having to devote considerable portions of his time to outlining the data on paper. It is, therefore, suggested that Mr. Ranstad be transferred back to the Washington Field Division or such other field division you deem advisable.

Again confirming our conversations, it is suggested that Special Agent A. Rosen be transferred from the Washington, Field Division to the subversive desk. My experiences with him on the kidnaping desk were highly satisfactory and I believe that he has the proper combination of mental alertness, analytical ability and enthusiasm to make him a valuable man in such work.

Respectfully,

K. R. McIntire

REMARKS

Mr. Tamm states Mr. Rosen has performed entirely satisfactory services as a supervisor and he believes that the basic shortcoming on the part of Rosen is a lack of aggressiveness. He states Rosen's attitude toward the Bureau and his work have always been commendable and he is doing very satisfactory work on the desk to which he is now assigned.

Mr. Tamm in March, 1937, reported that Rosen was becoming an increasingly valuable employee; that he had developed considerable executive capacity and he regarded him as an excellent Special Agent.

SAC Hottel on December 9, 1936, reported that Rosen made a good appearance; possessed a pleasing personality; seemed to have a complete knowledge of the Bureau's investigative work; he was loyal; a good dictator; possessed executive ability and should continue to develop.

I believe this Special Agent has qualifications that, in certain sections of the country, would make him a satisfactory Special Agent in Charge. He makes a good appearance; his personality is pleasing. He is interested, has enthusiasm for his work, and seems to have an inclination to make a more profound study of problems than the average Special Agent. I think he has definite possibilities for further advancement in the Bureau. Status - Excellent.

PERSONAL AND CONFIDENTIAL

Dear Sir:

The following is the record of the grades made by you during the course of the recent Retraining School held in Washington, D. C., which you attended:

Written Examinations

First:	94
Second:	80
Crime Statistics Test:	78
Crime Scene Searches:	Good
Practical Work in Gymnasium:	Good

Firearms Training

Practical Pistol Course:	56.8
.30'06 Rifle:	40

Thompson Submachine Gun:	100
Shotgun:	30
Colt Monitor:	31

Received instruction or training in Voucher Preparation; Fingerprint Classification; Latent Fingerprint Work; Use of Recomar Camera; Mechanics of Arrests and Searches; and Correction of Rough Draft Reports.

It is necessary that a grade of eighty-five per cent or more be made on the written examinations and the other tests which were given during the school in order for the grade to be considered satisfactory.

In firearms training, the passing grade for all weapons is sixty per cent, with the exception of the Practical Pistol Course, for which the passing grade is fifty per cent. Any grade made in the use of firearms which does not meet with these requirements is considered unsatisfactory.

In keeping with your suggestion that a definite procedure be followed in connection with this matter I have discussed in detail with Agent Starr the entire current Nazi investigation to date, consistent with your expression that time is of the essence and that a definite plan be worked out.

MINUTES OF THE
TRAINING SCHOOL NO. 1
OCTOBER 23, 1957

October 23, 1957

MEMORANDUM FOR THE RECORD

At 7:00 P. M., on the evening of October 23, 1957, the regular monthly conference of Bureau officials and Supervisors was held in Training School No. 1.

The following were absent from both roll calls:

Mr. Ryan	Mr. Harbo
Mr. Smith	Mr. Locke
Mr. Appel	Mr. Lott
Mr. Elich	Mr. Nichols
Mr. Blackburn	Mr. Q. Tamm
Mr. Coffey	Mr. Vogel
Mr. Cramer	Mr. Lerry
Mr. Harbo	Mr. Whitely

Mr. Lerry was attending a new Agents' class which was in session in another school room at the same time and to which he is assigned as teacher.

The following were out of town on official business:

Mr. Ryan	Mr. Harbo
Mr. Appel	Mr. Locke
Mr. Elich	Mr. Lott
Mr. Blackburn	Mr. Nichols
Mr. Coffey	Mr. Q. Tamm
Mr. Cramer	Mr. Whitely

The following were absent because of annual or sick leave:

Mr. Tamm (sick leave)
Mr. Harbo (annual leave)
Mr. Vogel (annual leave)

10012-17

October 23, 1937.

At the second roll call, Mr. Lawler and Mr. Brandt arrived a few minutes late, but their tardiness was due to the fact that I had specifically instructed them to go to their offices to secure some information relative to a case which was to be discussed extemporaneously and also information in answer to specific questions which had been asked as to the identity of a Special Agent who had performed certain improper investigative work in connection with the same case.

Mr. R. D. Clark, photographer in the Laboratory, arrived after the second roll call. However, he had been assisting in connection with some practical photographic work by some new Special Agents, and was not required to attend the conference.

Mr. Clegg discussed the changes which had been approved in the manual for field office Chief Clerks and in the Manual of Rules and Regulations.

Mr. Brandt led the discussion of the mishandling of a lead in a case by a Special Agent in the field, and this was followed by a discussion of possible leads in connection with the Hugh Gant case which is still outstanding. Comments were made concerning the handling of the discussions by both Mr. Brandt and Mr. Lawler.

A written examination was given to all those present and the grades made are as follows:

Mr. Brandt	100	Mr. Scott	95 1/2
Mr. Dwyer	100	Mr. Cingman	95 1/2
Mr. Collier	100	Mr. Mathis	95

MEMORANDUM FOR THE DIRECTOR

Re: Conferences with SACs and Supervisors
in fourth Special Agents in Charge
Conference, December 17, 1937.

In accordance with your instructions, I conferred with members of the fourth Special Agents in Charge Conference relative to appropriate contacts with peace officers and individuals other than peace officers in their respective field office divisions and concerning the date you desired in connection with states in their respective jurisdictions which might initiate police training schools for local officers through federal grants.

My opinion as to the abilities of the members of the fourth conference follows:

SPECIAL AGENT ALEX ROSEN
SUPERVISOR, DIVISION ONE

I have had no opportunity to observe Special Agent Rosen in action in making contacts with either citizens or peace officers. He is probably capable of giving satisfactory talks before small groups of citizens and peace officers. I do not recommend him as a contact man for national law enforcement conventions.

A copy of this memorandum is being routed directly to Mr. Clegg for his personal and confidential information.

Respectfully,

THE FBI PLEDGE FOR LAW ENFORCEMENT OFFICERS

Humbly recognizing the responsibilities entrusted to me, I do vow that I shall always consider the high calling of law enforcement to be an honorable profession, the duties of which are recognized by me as both an art and a science. I recognize fully my responsibilities to defend the right, to protect the weak, to aid the distressed, and to uphold the law in public duty and in private living. I accept the obligation in connection with my assignments to report facts and to testify without bias or display of emotion, and to consider the information, coming to my knowledge by virtue of my position as a sacred trust, to be used solely for official purposes. To the responsibilities entrusted to me of seeking to prevent crime, of finding the facts of law violations and of apprehending fugitives and criminals, I shall give my loyal and faithful attention and shall always be equally alert in striving to acquit the innocent and to convict the guilty. In the performance of my duties and assignments, I shall not engage in unlawful and unethical practices but shall perform the functions of my office without fear, without favor, and without prejudice. At no time shall I disclose to an unauthorized person any fact, testimony, or information in any pending matter coming to my official knowledge which may be calculated to prejudice the minds of existing or prospective judicial bodies either to favor or to disfavor any person or issue. While occupying the status of a law enforcement officer or at any other time subsequent thereto, I shall not seek to benefit personally because of my knowledge of any confidential matter which has come to my attention. I am aware of the serious responsibilities of my office and in the performance of my duties I shall, as a minister, seek to supply comfort, advice and aid to those who may be in need of such benefits; as a soldier, I shall wage vigorous warfare against the enemies of my country, of its laws, and of its principles; and as a physician, I shall seek to eliminate the criminal parasite which preys upon our social order and to strengthen the lawful processes of our body politic. I shall strive to be both a teacher and a pupil in the art and science of law enforcement. As a lawyer, I shall acquire due knowledge of the laws of my domain and seek to preserve and maintain the majesty and dignity of the law; as a scientist, it will be my endeavor to learn all pertinent truth about accusations and complaints which come to my lawful knowledge; as an artist, I shall seek to use my skill for the purpose of making each assignment a masterpiece; as a neighbor, I shall bear an attitude of true friendship and courteous respect to all citizens; and as an officer, I shall always be loyal to my duty, my organization, and my country. I will support and defend the Constitution of the United States against all enemies, foreign and domestic; I will bear true faith and allegiance to the same, and will constantly strive to cooperate with and promote cooperation between all regularly constituted law enforcement agencies and officers in the performance of duties of mutual interest and obligation.

With reference to the grade of 83 $\frac{1}{2}$ % which I received on the November conference examination, this was due in part I believe to the fact that I was called out during the examination to accept a call from Agent Rice at San Francisco in connection with the Nazi investigation. I did not have a chance to review my examination and had to answer questions rather hurriedly.

If I had had additional time I might have got an additional few points in order to give me a passing grade.

I wish to make the statement that I am placing Special Agent M. E. Gurnea at the head of the list both for marksmanship and ability to instruct others, even though he was not in attendance at Quantico, Virginia during the period of firearms training afforded the members of the Administrative School now in session. Having worked with and observed Special Agent Gurnea in the past, it is the opinion of the writer that he is surely deserving of heading this list.

New Chief of G-Men Here Is Clevelander Come Home

Five years ago, a young Cleveland attorney, A. L. Rosen, closed his law office here and went to Washington to join the crime-fighting forces of J. Edgar Hoover.

Today Rosen is the new G-man chief of the Cleveland district. He succeeds T. N. Stapleton, who is leaving the service to become a member of the legal staff of the E. I. Du Pont de Nemours Co. in Wilmington, Del.

Rosen, who is 31, was graduated from Ohio State university and became a member of the Ohio bar in 1930.

Since 1933, he has been connected with the federal bureau of investigation offices in New Orleans, Atlanta, Buffalo, and various other cities throughout the country.

Stapleton, who plans to leave immediately for his new position in the Du Pont organization, has been with the F. B. I. for six years.

"I leave the organization with regret," he said. "There is a fraternal spirit among the men of the bureau, which I shall miss."

Stapleton expressed appreciation for the assistance which he received from local law enforcement authorities.

members of this class from a standpoint of Special Agent in Charge material:

A. CORNELIUS

He is mature in appearance, but somewhat juvenile in judgment. He is big and robust, but somewhat ~~flighty~~ flighty. I believe ^{he} is the type who would emphasize activity instead of proper direction.

As an administrator, I believe he would be "Unsatisfactory" primarily because of his potential difficulties with personnel and because of his inclination toward immature judgment. As an investigator, I would rate him as "Good" and as a salesman as "Good".

T. W. DAWSEY

I believe that this employee's appearance of profoundness is only skin deep. He is inclined to strive to create impressions, but he impresses me as being very superficial.

As an administrator, I would rate him as "Unsatisfactory". Among the reasons for this rating would be the fact that he would have difficulty discovering important things because of his tendency to over-emphasize the less important. In other words, he impresses me as being the type who could not see the woods for the trees and he likewise is of a temperament not calculated to make him well qualified to handle personnel.

As an investigator, I would rate him as only "Fair" because of his lack of experience, and as a salesman as "Good".

H. R. DUFFEY

I believe this employee is loyal, but he has a lackadaisical, slow-moving physical and mental attitude which conveys the impression that he is lazy. He does not appear to have qualities either of leadership or driving forcefulness.

I would therefore rate him "Unsatisfactory" as an administrator; "Fair" as an investigator and "Fair" as a salesman.

M. E. GURNEA

I consider this employee to be forceful, capable and generally competent and well adaptable. He appears on first acquaintance to be cold and phlegmatic, but this is not true, although it might to some extent keep him from making the best first impression. He is not always inclined to jump into things and assume control, but once he feels this is his duty, he does so with vigor and positiveness.

I would rate him as "Good" as an administrator; "Excellent" as an investigator and fairly "Good" as to salesmanship.

Memo. for the Director.

- 3 -

February 14, 1938.

S. W. HARDY

This is a loyal employee who I believe really loves his work. I have seen him act in charge of an office temporarily. He gets everything initialled properly, but not acted upon. The job of Special Agent in Charge, I feel, is way over his head and in such a capacity he would be somewhat in a position of a boy scout playing President.

I would rate him as "Poor" as an administrator; "Good" as an investigator and "Fair" as a salesman.

J. E. LAWLER

This employee is five feet, seven inches, in height; is slightly built and therefore is rather unimpressive on first appearance. He has a good mind, good ideas and good judgment. He has interest in the work. He tries hard. He likewise has personal forcefulness.

As an administrator, I would rate him as "Good"; as an investigator "Good" and as a salesman as "Fair".

A. B. LECKIE

This employee is not profound, but he does try hard. He presents a good front and would make a favorable impression as a Special Agent in Charge. He has some ability and quite a bit of enthusiasm.

As an administrator I believe he would rate as "Fair"; as an investigator as "Good" and as a salesman "Good".

J. J. MCGUIRE

This employee is rather lean and lanky, but has latent ability which has not yet developed sufficiently to justify his designation as a Special Agent in Charge. He makes an unfavorable first impression due to his appearance.

As an administrator I would rate him as "Fair"; as an investigator as "Good" and as a salesman as "Unsatisfactory".

S. K. MCKEE

This employee is rather shrewd and cagey. He looks as if he were pleased with himself and there is some justification for it as he does have some ability. He would probably have some trouble handling personnel.

As an administrator generally, however, I would rate him potentially as "Good"; as an investigator "Good" and as a salesman as "Fair".

A. ROSEN

This employee is conservative and enthusiastic; relatively safe and sound. He is liable to become tied down to his desk to the exclusion of outside functions. He is Jewish.

Memo. for the Director.

- 4 -

February 14, 1938.

A. ROSEN (CONT'D)

As an administrator I would rate him as "Good"; as an investigator as "Good" and as a salesman as "Fair".

H. E. SCOTT

This employee has enthusiasm, but needs experience. He is rather jumpy in expression and in his thought processes. He has determination and force.

As an administrator, I believe he would be "Good"; as an investigator "Good" and as a salesman "Fair".

D. O. SMITH

This employee is by type a Chief Clerk with a Chief Clerk's complex. He would likely become involved in handling a mass of detail and get lost in this mass. He very likely would have considerable difficulty in handling administrative work and he is lacking in qualities of forcefulness to such an extent that I think he would not create a forceful impression.

As an administrator I would rate him as "Fair"; as an investigator as "Good" and as a salesman as "Unsatisfactory".

J. D. SWENSON

I think this employee is a rather sound and substantial individual as far as judgment is concerned, but not particularly impressive as to force.

As an administrator I would rate him as "Good"; as an investigator as "Fair" and as a salesman "Good".

P. WYLY

This employee makes an excellent personal appearance; has a good personality and is improving very rapidly. He handles a firearms training line with intelligence and force.

As an administrator I would rate him as "Good"; as an investigator as "Fair" and as a salesman as "Good".

Respectfully,

H. H. Clegg.

Dear Mr. Rosen:

This is to acknowledge receipt of your letter dated February 25, 1938, wherein you set forth certain suggestions which you believe might be of value in connection with bank robbery investigations.

I was particularly interested in the second paragraph of your letter, concerning the manner in which certain additional witnesses were located, and believe this procedure might prove of value in other bank robbery cases.

The incident relative to the stolen license plates is also interesting, and this manner of altering and disguising license plates has been used in other bank robbery cases in the past. However, this should, of course, be borne in mind by Agents investigating this type of case, since it is quite probable that this type of criminal will resort to various means to disguise his identity and the identity of his automobile.

I sincerely appreciate your thoughtfulness in bringing these matters to the Bureau's attention and believe the suggestions contained in your letter will be of value for presentation to new Agents in future training schools.

Sincerely yours,
For the Director,

Re: Suggestions for Methods of
Investigation in Bank Robberies

Dear Sir:

I have just reviewed the file in the case entitled, VINCENT GRINKIEWICZ with aliases; et al; Cleveland Trust Company, Waterloo Branch, Cleveland, Ohio; BANK ROBBERY, the investigation of which was conducted by Special Agent Robert H. Hicks of this field division, and there are two lines of investigation which, it occurred to me, might be pursued with profit in other bank robbery investigations.

At the outset of the investigation the file shows, and Mr. Hicks has explained to me, there were very few witnesses available. As shown on page 5 of his opening report in this case, Mr. Hicks conferred with the employees at the bank and requested them to casually inquire of their customers whether they had seen the actual attempt to rob the bank. They were asked to do this in a very casual manner as though there was no effort being made to obtain any names of prospective witnesses, and when customers of the bank said that they had seen the attempt the tellers made a note of their names which was immediately turned over to Special Agent Hicks, so that they could be interviewed. In this particular investigation several excellent leads were developed in this manner which otherwise might not have come to light.

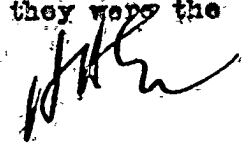

Also, in this investigation Special Agent Hicks received information that a car which might possibly have been identical with the getaway car was serviced at a gasoline station about an hour before the attempt was made, bearing 1037 Ohio license plates TP-99. Agent Hicks conducted an investigation in connection with those plates and finding that they were the

license plates of a very reputable citizen proceeded on the theory that they might have been altered from TR-09 to TR-00. Investigation revealed that 1937 Ohio license plates TR-00 had been stolen during the month of November 1937, and it will be noted that when the subjects in this case were killed after the robbery of a bank at Columbus, Ohio, license plates TR-00 altered to TR-09 were found among the dead bank robbers' effects.

It is suggested that the information contained herein might prove of informative value to new agents' training schools and that in bank robbery cases particular attention be paid to the possibility of the alteration of license plates.

Al Rosen,

Dear Mr. Tolson:

I was particularly moved upon learning of the extremely unfair and unjustified "editorial" appearing in the January-February issue of the Journal of Criminal Law and Criminology by Newman F. Baker, concerning the Director.

On these rare occasions when some "crackpot" could not otherwise get any of his comments published, it appears that a most outstanding person is usually attacked.

It is indeed a shame that any comment concerning Baker and others of his ilk has to be couched in parlor parlance.

Mr. Alex Rosen,
Federal Bureau of Investigation,
United States Department of Justice,
1448 Standard Building,
Cleveland, Ohio.

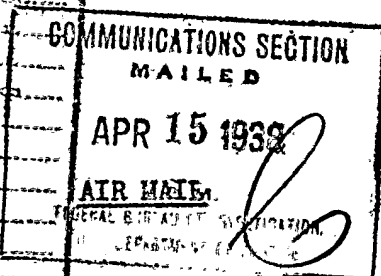

Dear Sir:

I have just reviewed the reports dealing with the surveillance maintained in the home of Joseph Seiber, Sr. at Mayfield Heights, Ohio, and I wish to advise you of my extreme displeasure over the incidents occurring on March 21st and 22nd and the failure to apprehend Charles and Barbara Bird. It is felt that the Agents maintaining the surveillance were not sufficiently alert, that possible emergencies were not anticipated and that the proper precautions were not taken in considering methods of approach and escape. This is particularly apparent in view of the fact that agents were not stationed in the garage as well as in the house. It is further observed that when Charles and Barbara Bird appeared at the house on the night of March 21st, Agents Lorry and Nicholson were playing cards and Agent Pash was sitting in the living room. These facts are, of course, attributable to improper supervision and carelessness on the part of the Agents.

The Bureau is cognizant of the careful study given to the preparation of the plans for this surveillance before it was established and of the precautions taken by you to avoid error in that the proposed plan was discussed with the Agents assigned to the Cleveland Field Division prior to the formulation of the final plan. Nevertheless, the improper night surveillance of the house cannot be condoned.

Special Agents Nicholson, Lorry and Pash are being advised of their suspension from 9:00 A. M. April 18th to 9:00 A. M. April 25th.

Very truly yours,

John Edgar Hoover,
Director.

Dear Mr. Rosen:-

The records of the Bureau show that the average regular overtime service performed by you per working day during the period from February to May, 1938, inclusive, was 6 hours and 1 minute.

While I appreciate your industry, I do feel that this is an excessive amount of overtime and I desire that you endeavor to reduce the number of overtime hours of work which you perform. Although it is realized that there will always be overtime on the part of Bureau representatives and while I am anxious to have this overtime performed on an equitable basis by field employees, I do not feel that any employee should continue in his work to such an extent that it may impair his physical health. I hope that it will be possible for you to reduce the amount of time which you have been spending on official duties.

MEMORANDUM FOR THE DIRECTOR

○ I thought you would be interested in knowing of the attitude of SAC Rosen of the Cleveland office concerning the assignment of Agents of his office to the Cash Kidnaping case. I called various field offices instructing that Agents report to Miami on this case in accordance with your instructions. Every office had an excuse to offer why they could not spare men with the exception of Mr. Rosen, who stated that he would and could spare at least five men from his office if they were necessary in the case. I thought that his attitude was not only good but rather unusual among the Special Agents in Charge.

MEMORANDUM FOR MR. TOLSON

On July 2nd I saw Special Agent in Charge A. Rosen, of the Cleveland Office, who was attending the retraining class. Mr. Rosen did not impress me quite as favorably upon this interview as he did before he left Washington for Cleveland. He did not seem to be as keen and as active physically as he was when he was here at the Bureau. This, however, may have been merely a passing impression and not based upon real facts. I believe Mr. Rosen is taking an interest in his work as Agent in Charge and the only doubt that I would have would be that he might feel that he is somewhat overwhelmed with his task. I think his office should be checked at an early date in view of the fact that he is one of the newer SAC's.

The following are my personal opinions concerning the speaking abilities of the Special Agents in Charge attending the third SAC School in Washington, June 20 to July 2, 1933, based on their talks before the conference and my observation of them in the field:

A telephone call was received from SAC Rosen, who stated he is in Detroit, Michigan, having had a slight operation performed on his nose recently, that he is due back in Cleveland today, but he was only released from the hospital yesterday and his physician states he should be under his care until Thursday or Friday at least.

Mr. Rosen wanted to know whether it would be possible for him to remain in Detroit under the physician's care for the balance of the week, returning to Cleveland Monday morning, and was informed that unless otherwise advised this would be satisfactory.

He stated the operation was on account of a deviated nasal septum and that the operation appears to have been a success.

His address in Detroit is the Book-Cadillac Hotel.

Respectfully,

A. H. Crowl

MEMORANDUM FOR MR. TOLSON

S.W. K. [unclear]

Pursuant to instructions I addressed the banquet meeting of the Ohio Association of Chiefs of Police at its annual convention in Toledo, Ohio, on the evening of October 4th, at the Hotel Commodore Perry.

Upon my arrival in Toledo around noon on October 4th, Mr. Rosen and I attended a luncheon meeting of this group which was held at the Yacht Club where approximately 100 people were in attendance.

During my stay in Toledo I met practically all of the visiting Chiefs and without exception I found a universally wholesome feeling toward the Bureau. Mr. Rosen and Special Agent Joe Lynch had been attending the convention from its inception on the morning of October 3rd, and both Rosen and Lynch were acquainted with all of the visiting Chiefs and as a matter of fact I would like to point out that the visiting Chiefs were all calling these two men by their first names. It appears that Mr. Rosen in his quiet manner had done an excellent contact job at the convention which was dominated by the FBI throughout and I do not believe that it would be amiss to commend both SAC Rosen and Special Agent Lynch for their attitude and for their efforts during the convention for I know that Rosen and Lynch both spent quite a little money during the period and there was a constant stream of officers to their hotel rooms. Many of the officers personally informed me of the high esteem in which they held Mr. Rosen and likewise they spoke very favorably of Lynch who I believe is doing at least an excellent contact job in Toledo and I believe that the Bureau may well keep him in mind after he has had a little more field experience.

When the programs were made up Grove Patterson, Editor of the Toledo Blade was listed as the Toastmaster. However, he was out of town on October 4th and a Mr. Robert Dunn, a Toledo attorney, acted as Toastmaster. Mr. Dunn in introducing the writer referred to the Bureau in most commendatory terms and stated that today whenever anyone thinks of law enforcement they think first of the FBI. Contrary to my expectations when this latter statement was made, he was applauded by the Chiefs of Police.

Memorandum for Mr. Tolson

- 2 -

October 8, 1938

I spoke for thirty minutes on the general theme of law enforcement and modern society and from every indication my remarks were well received. Mayor Roy C. Start was at the banquet and I chatted with him after the program. Mr. Fred Mullencof, City Editor of the Blade, was also present and I had a nice visit with him. Mullencof stated that he had met the Director while the American Association of Editors was holding its annual convention in Washington in the spring of 1936 and that he had seen portions of the Bureau but that at some future date when he is in Washington he wants to visit the Bureau in detail.

Detective Eggert who apparently is doing the Laboratory work for the Toledo Police Department spoke for fifteen minutes on Toledo's use of the polygraph. He had attended Northwestern for his instruction and stated that the polygraph had been used 218 times and as a result 127 confessions have been secured.

I visited with Chief of Police Ray Allen of Toledo quite a little bit while he was there and he appears to be very commendatory to the Bureau and one cannot help but gain the impression that Allen is sincerely endeavoring to do his job the best that he can. He referred to the recent confidence cases in Toledo and stated that he had called upon the Cleveland office for information and Mr. Rosen related that Allen was anxious to find out what a certain informant had furnished the Bureau regarding members of the Toledo Police Department.

Chief of Police Stanley W. Switter, a graduate of the NPA from Massillon, Ohio, was present at the convention and appeared to have the respect and esteem of everyone in attendance.

I happened to meet the new Chief of Police at Akron, Ohio, Rea M. Williams, who stated that on several occasions the Bureau had helped him out. I also conversed at length with Colonel E. T. Weatherly, Chief of Police at Cincinnati, who is very friendly and spoke very highly of Mr. Harris. Former Chief of Police Frank Boss of Akron referred to the Director and the Bureau very highly and told me of some of his difficulties in Akron by reason of the activities of certain of the politicians.

Chief Switter of Massillon asked Mr. Rosen and the writer when the Bureau was going to send him the film. It later developed that he was expecting the film dealing with the technique of searches and seizures to be sent to him at Massillon and he wanted to make arrangements to have

Memorandum for Mr. Tolson

it shown at the motion picture theaters. He, of course, informed him that the film was only for law enforcement officers due to the nature and it would be unwise to have it shown generally to a group of citizens. He stated that he was anxious to get the film primarily to have the City Council see it. Mr. Rosen will take this up with the Chief later, and a check will be made to see if any commitments have been made for the film with Chief Switzer.

Chief Allen told me that he had secret indictments returned charging eleven individuals for confidence swindles and was getting out posters which would be broadcast throughout the country. He will send copies to the Bureau.

For your information, Special Agent in Charge Rosen had annual leave approved for the period August 17th to September 3rd, inclusive.

On September 6th at 5:54 P.M., a call was received from Rosen advising he was in Detroit, having had a slight operation performed on his nose and that although he had been due back in Cleveland that morning, he had just been released from the hospital the day before and his doctor stated he should remain under his care. He stated he would remain in Detroit for the balance of the week, returning to Cleveland on the following Monday morning, the 12th of September.

No further word was received from him advising of his return to duty on the 12th and therefore on the 15th a teletype was sent to the Cleveland Office requesting that the Bureau be informed whether he had returned to active duty from sick leave. In reply thereto, the Bureau was advised by wire from Cleveland that Rosen had been telephonically contacted at Chicago and was keeping an appointment with a doctor in Detroit on the following Saturday, returning to active duty on Monday the 19th and that he was at that time on annual leave. He returned to active duty on the 19th and submitted an annual leave application to cover the two weeks from the 12th to the morning of the 19th of September.

You are advised that the application for leave through the 3rd of September carried the Cleveland address of this Special Agent in Charge. The Bureau was not notified that Rosen had gone to Detroit until the telephone call of the 6th and neither was the Bureau informed that he had proceeded to Chicago from Detroit until the wire of inquiry revealed he was in Chicago on the 15th. Also the files of this employee, both personnel and administrative, as of this date fail to reflect that approval was given for the additional week's leave from September 12th to 17th, inclusive.

SAC Rosen telephonically communicated with me and stated that on November 2, 1938, a Buick automobile, the property of the Bureau, was properly stored in the contract garage at Cleveland at 5:30 P.M., that they endeavored to secure the car on November 4, 1938, and it was not to be located.

Rosen stated that he then received a report from the Cleveland Police Department that this car had been recovered and it was definitely ascertained as a result of an investigation that the car had been taken from the contract garage and used for a joyride and had been undoubtedly abandoned.

Rosen stated that in discussing this matter with the management of the garage the inference was that the night attendant went to sleep and somebody came in and took the car out. Rosen was desirous of knowing whether this contract should be canceled. I advised him that most assuredly the contract should be canceled immediately and he should secure new bids for the proper storage of the machines in question.

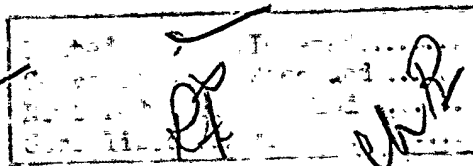

I also pointed out to him that this matter should have been immediately referred to the Bureau without waiting for his investigation to be completed. He stated he now realized that this was what should have been done. He further advised me there was absolutely no publicity concerning the recovery of the car, that nothing was disturbed in the car, and that there will be no publicity in the future.

Dear Sir:

I have been advised concerning your telephone call of November 7, 1938, at which time you reported the probable theft of a Bureau-owned Buick automobile on November 2, 1938, from the contract garage and its subsequent recovery by the Cleveland Police Department on November 4, 1938.

I am at a loss to understand why this matter was not immediately reported to the Bureau by you on November 4, 1938, at which time it was definitely determined that the car had been removed from the contract garage by an unauthorized party.

I trust that in the future matters such as this will be promptly reported by you.

Very truly yours,

Re: EMERGENCY EQUIPMENT

Dear Sir:

There have recently been installed in this office and placed on the non-expendable inventory the following items:

- 1 Spade
- 1 Axe
- 1 Hatchet

It is believed that such equipment should be added to the inventory of every field office, inasmuch as occasion might arise where those items would be of invaluable assistance, particularly in kidnaping, extortion cases, crime scene searches, and raids.

Dear Sir:

Reference is made to your letter dated November 23, 1938, wherein you make a suggestion with reference to a kit to be used in field offices in connection with investigative work.

This matter has been given consideration and in view of the fact that most of this material is already available in field offices, the Bureau does not desire to make the additional expenditure or to issue instructions making such kits necessary in the various field offices.

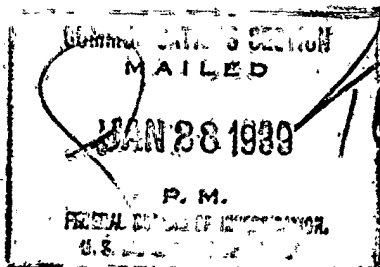

I desire, however, to express my appreciation for your suggestion and your thoughtfulness in submitting it to the Bureau.

Special Agent in Charge A. ROSEN.

It is reported that the first week or two that Rosen was in New York on a special, he did not earn "enough money for food," as he did practically nothing around the office. It is also reported that he apparently worked late at night on occasions inasmuch as he came to work late several times.

PERSONAL ATTENTION

MEMORANDUM FOR MR. TAMM

When we discussed the assignments of Mr. Rosen and Mr. Sears to the Investigative Division before you left the city, I believe I indicated that it was my desire that Mr. Sears assume the duties which Mr. Foxworth had performed and that Mr. Rosen be in the second capacity, that is to say, that when you were out of your office or out of the city, Mr. Sears would act in charge of the Investigative Division. In my conversation this morning with Mr. Sears and Mr. Rosen, I gained a most unfortunate impression of Mr. Sears. I proceeded to outline the policies and plans which I had in mind, mentioning numerous names and details, all of which were noted in writing by Mr. Rosen, whereas Mr. Sears sat complacently by, making no notations of anything. When I concluded my conversation with these two Inspectors, I expressed to Mr. Sears my displeasure at his failure to make notes of matters that I had discussed. His only excuse was that he did not have any paper or pencil. I considered this excuse to be utterly unwarranted in that he had waited in my outer office for some time to see me, and certainly knew that I intended to discuss official matters with him, and therefore ~~he should have had the ingenuity and efficiency to procure paper and pencil before coming in to see me, but failing to do that it was entirely reasonable that he might ask for some paper and a pencil after he got in here, which he did not do.~~

Consequently, I decided to designate Mr. Rosen as your Chief Assistant and have assigned him to the office occupied by Mr. Foxworth and it is my desire that in your absence Mr. Rosen act in your place.

I am hopeful that Mr. Sears will manifest more interest and attention to his duties than was evidenced by his manner in my office this morning.

Very truly yours,

John Edgar Hoover,
Director.

RE: Lecture Before SAC Conference

Mr. Tolson informed me that it had been reported that Rosen's presentation of his material Tuesday, July 18, 1939 before the SAC Conference was very poor.

I was in New York on that date, but I have investigated the matter. The following are my findings:

Inspector Gurnea (I believe Gurnea to be best qualified of those interviewed to pass on this matter): Rosen got along o. k. There were some uncalled for questions of a technical type which were asked by some of the Special Agents in Charge, but Rosen's job was well done. Some of the technical questions were useless, yet he did not seek to discourage any questions which were asked.

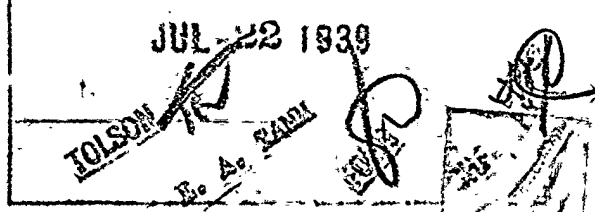

[redacted] He heard only a part of this subject as he was called out of the classroom; he believes, ^{bad} to talk with the Director. He did consider Rosen's presentation ^{bad} generally, as far as the substance was concerned. The talk was good as far as expression or eloquence, but he had to "hedge" too often.

Mr. Egan: He considered Rosen's presentation as bad. He didn't seem to know his subject.

Mr. Nathan: Mr. Rosen's presentation was o. k. It was a rather slow, deliberate and mature presentation of his subject matter, in a well balanced way.

Mr. Rosen: Mr. Rosen stated that he probably was not a competent judge. He tried his best. He stated he was so anxious to have done a good job that he asked a number of the members of the class, all of whom expressed approbation. However, he didn't want to offer any of their names, because he didn't feel that he should try to offer any defense, and if there was any one person in the class who was dissatisfied, he feels he has failed to that extent.

Mr. Gurnea has pointed out that the Special Agents in Charge

Memo for the Director

- 2 -

July 19, 1939

apparently failed to realize that espionage work and radical activities matters, as subject matters, have not been developed to as positive a degree and to as expansive a degree as National Motor Vehicle Theft Act, and that it is frequently impossible for anyone to give an absolute answer, but that he felt that Mr. Rosen and Mr. Lawler both handled the subject as well as it could be handled, in view of the general situation. Mr. Hince was on duty but not in the SAC Conference classroom. He was handling the incoming mail of the day, dictating, aiding in such arrangements as were necessary for SAC's to proceed to the Director's office for appointment, and preparing for instruction work the following day. I have told him to be present in the SAC Conference in the event I shall be called out of the city at any time when he is not personally appearing before some other school.

H. H. Clegg

MEMORANDUM FOR THE DIRECTOR

The Executive Conference, Messrs. E. A. Tamm, Quinn Tamm, Glavin, Nathan and Clegg being present, considered a memorandum dated April 26, 1939, prepared by Mr. Clegg concerning inspection work. The suggestions, in brief, were as follows:

- (1) That there be more frequent inspections of field offices, which would necessitate of course an increased number of available inspectors.
- (2) That the inspectors be of a type or personality to whom Agents can come freely to discuss any matters of serious aggravation, real or imagined.
- (3) That Bureau officials in Washington, whenever they visit field offices, should before departing from such field offices let it be known to the personnel of the office that they will be glad to confer with any employee of the field office who has any matter to discuss with the official.
- (4) That "time limits" on inspections be eliminated so as to enable the inspector to make a more detailed check of the general administration of the office and to become better acquainted with the general situation within a field office.

It is recognized that in order to accomplish the above purposes, additional inspectors who will be available for such work will have to be designated. Mr. Clegg also suggested that to the greatest possible extent Special Agents in Charge rather than inspectors be placed in charge of special investigations of extended duration. He realized, of course, that necessary exceptions must be made to this suggestion from time to time.

In considering the availability and qualifications of present Special Agents in Charge to conduct inspections of field offices, it was realized that no one of them was free of faults and perhaps none of them

67-030-52

5-23-39

possessed all the qualifications desired of an inspector. Recommendations are being made by the Conference, however, for the selection of certain Special Agents in Charge who are believed to be possessed of a type of personality and experience which would lead to a belief that they might at least go into a field office, find the conditions existing in the field office and submit a report concerning these conditions. In case of doubt as to what action should be taken, the Bureau could issue the instructions after a review of the report or could advise the inspector who would be privileged to communicate with the Bureau at will.

It was further believed that the Special Agents in Charge being designated should not presently be given the title of "inspector" but that they should be called into Washington for a conference of one or two days to have explained to them the procedure of conducting inspections and to familiarize themselves with the Inspectors' Manual; that they should be informed they are not being made inspectors but that due to existing emergencies their services were going to be utilized to make one or two inspections each in view of the fact that the regular inspectors of the Bureau were tied up on other matters. It was believed possible that, as a result of these trial inspections, one or more of the following might be found competent and qualified to conduct inspections regularly. Those recommended for such an assignment are:

1. Special Agent in Charge J. W. Vincent
2. Special Agent in Charge Edward Scheidt
3. Special Agent in Charge Al Rosen

Respectfully,

FOR THE CONFERENCE

Re: Alex Rosen
Thirty Day Report

During the assignment of Mr. Rosen to the Investigative Division in the capacity of an Inspector he has rendered entirely satisfactory service. Mr. Rosen is an exceedingly conscientious worker and voluntarily devotes long hours of overtime to the handling of the work upon his desk. He really handles a volume of work sufficient to keep two average employees going full time and I most heartily recommend his continuation on his present assignment.

Reference is made to the memorandum for the Director dated January 8th prepared by Mr. E. A. Tamm in which he recommends certain salary promotions, among them being a \$200 increase for Special Agent Alex Rosen.

Agent Rosen is at present in Grade CAF-12, receiving a salary of \$5400 per annum which is the top salary of that grade. In order to afford him a \$200 increase it would be necessary to transfer him to Grade CAF-13 which has an entrance salary of \$5600.

No action will be taken in this connection pending further advice from you.

Respectfully,
